NOW, THEREFORE, the parties agree as follows:

ARTICLE 1 - RECOGNITION

The Department reserves the right to make assignment from the above classifications (other than Battalion Chief) to the positions of Fire/EMS Training Officer, or EMS Coordinator. Such assignments shall be considered temporary and will normally last from three (3) to five (5) years. 1.3 When any new classification not listed in section 1.1, above, is established by the City and assigned to the unit, the City shall designate a pay rate for the new classification. The City shall then notify the Union in writing of the pay rate and furnish the Union with a copy of the new classification specification. In the event the Union does not concur in the pay rate, the Union shall promptly notify the City in writing of such within ten (10) days of its receipt of the City notice. The employee will determine this movement.

C. Short-Term Leave Bank - EOD personnel through the classification of Captain will be permitted to place a maximum of one-hundred forty-four (144) hours of accrued vacation in a "Short-Term Leave Bank." This leave may be used under the following conditions from July 1 to June 30 each year:

3. Leave shall be requested and taken up to a full twenty-four (24) hour shift. Leave will be taken in whole hour increments (1, 2, 3, 4, 5 hours etc.) that starts either at the beginning or end of the shift. Employees assigned to a 40-hour workweek shall accrue sick leave at the rate of eight (8) hours for each full calendar month of service. There shall be no maximum limit placed on accrual of sick leave.

5.3 Use of Sick Leave

Employees may use their allowance of sick leave when unable to perform their work duties by reason of illness or injury, exposure to contagious disease under circumstances by which the health of the employees with whom associated, or member of the public necessarily dealt with would be endangered by the attendance of the employee, or by serious illness or disability in their immediate families requiring the presence of the employee, or any other purpose provided by FMLA, OFLA or Oregon SB 454 (2015) for such period as the employee has sick leave credit.

When sick leave is used by 56-hour employees, replacements may be called back for the actual time-off without regard to the four-hour minimum guarantee in section 15.4 B.

Sick leave is to be used for the purposes outlined in this Article and will not be granted to cover other leave requests made by employees.

Employees requesting sick leave are required to have enough sick leave accrued to cover the request. If the leave is granted and the employees does not have enough sick leave to cover their request, they will be placed on leave without pay or vacation, as determined by the Fire Chief, for the balance of the hours requested. Sick leave usage and accruals are tracked by pay period and shown on the employee's pay stub. It is the responsibility of the employee to be aware of the amount of sick leave they have available.

Employees who have been placed on Family Medical Leave, either by request or by the City, will be required to use their available leave before going on leave without pay, with the following exception:

The employee may elect to take unpaid leave and save an equivalent amount of sick leave to cover the waiting period for an illness or disability that qualifies as a long-term disability under the City's long-term disability plan. Four hundred and eighty (480) hours is the maximum number of sick leave hours that can be saved for future use for disability rather than being used during Family Medical Leave. Sick leave hours under this provision shall be treated as any other sick leave for purposes of Article 30.

Employees who have applied and are approved for Family Medical Leave may use any accrued leave, including Sick Leave, Vacation, or Short-Term Vacation leave.

Upon approval of Family Medical Leave, 56-hour employees must advise the Shift Commander as to what type of leave is to be used and recorded for each day of approved leave.

Employees are not eligible for sick leave if continuing to work at another job during the time period for which sick leave is requested.

"Immediate Family" is defined as grandparents, mother, stepmother, mother in-law, father, stepfather, father in-law, spouse, sister, brother, children and stepchildren, regardless of place of residence or other relative residing in the employee's immediate household. The term "spouse" as used herein and Article 7, shall include a same sex partner, as defined by state law.

5.4 Health Care Provider (HCP) Certification

The City may require an employee to provide a HCP statement, which at a minimum outlines the need for the use of sick leave. HCP's costs, if any, which are not covered by the City-provided Health Insurance Plan will be borne by the City.

Any City-required HCP appointments shall be on paid time, and may be to a HCP of the City's choosing and no employee shall be required to use additional accrued paid time-off in order to comply with this provision. The City must receive HCP's statement no later than one (1) calendar week from the request by the City. The Fire Chief may grant an extension if extenuating circumstances exist.

Health Care Provider (HCP), is defined by ORS 659A.150.

5.5 On-the-Job Injury Leave

An employee receiving injury time loss payments because of an injury arising from employment with the City shall be paid the difference between the employee's regular bi-weekly salary and injury time loss payments. Such injury leave pay shall continue for so long as the employee continues to receive injury time loss payments, but in no event longer than one hundred eighty (180) calendar days following the injury or illness.

However, for the purposes of this section, an injury or illness which is determined to be an aggravation of a prior injury or illness under Oregon's workers' compensation laws or regulations will not be considered a new injury or illness and benefits under this section will be paid only to the extent they are available to the employee under the original injury. A current employee may utilize any remaining injury leave under this subsection if an aggravation or deterioration of the original condition occurs, regardless of the amount of time that has passed since the original injury.

- B. If a claim is denied by the insurer, and such denial is upheld following appeal, any injury leave paid under this section prior to such denial shall be converted to hours and charged against the employee's accrued sick leave, accrued vacation, and/or holiday leave.
- C. If an employee is off work beyond one hundred and eighty (180) days as a result of a work injury, the employee shall be eligible to apply for long-term disability insurance benefits as provided in this contract.

- D. The employee may use any remaining accrued sick leave, holiday time and vacation time after one hundred and eighty (180) days and must use such in situations governed by Article 11.C. Medical progress reports may be required prior to approval of such payments.
- E. Employees may be allowed to work light duty assignments, if available and approved by the employee's treating health care provider. While working light duty, the employee will be permitted to take up to three (3) hours per day of release time during the shift to undergo prescribed physical therapy or follow-up doctor appointments that are directly related to the on-the-job injury. The release time will be charged against the one-hundred and eighty (180) days as defined under Section A above. If that time has been exhausted, the release time shall be charged to sick leave hours or the work schedule may be adjusted accordingly, e.g. extension of the shift. However, in no case will overtime be paid for an adjusted workday. In the latter case, the adjusted work hours must be approved by the Deputy Chief, Operations.

5.6 Career Sick Leave Incentive System PERS Tier 1 and 2

Pursuant to applicable PERS regulations, fifty percent (50%) of an employee's accrued but unused sick-leave balance at retirement shall be reported for use in the computation of final average salary by PERS to determine retirement benefits.

Subject to IRS and plan limitations, upon an employee's retirement, as defined in Article 30, at the employee's request, the City will make available at the employee's regular rate of pay, up to a maximum of two hundred fifty (250) hours of accumulated sick leave to the employee's deferred compensation plan. The hours will be converted to a "cash" value and contributed to the deferred compensation plan, through payroll deduction on the employee's final paycheck. The provision for contribution of sick leave provided in this section can only be credited to the employee's deferred compensation plan, if one exists, and has no actual cash value to any employee, spouse, dependent, or estate.

5.7 Tier 3 OPSRP Sick Leave Incentive System

The Employer and the Local agree that the Employer will make the following mandatory transfers in an amount equal in value to 50% of the payments for the employee's unused sick leave bank up to 1000 hours, on a pre-tax basis, on behalf of every Tier 3 OPSRP employee who is represented by the Local. The Employer will make the following mandatory transfers of accrued leave to the plan selected by the employee, as long as the employee provides written notice of the selection at least thirty (30) days prior to retirement date. The employee can select from the following plans for transfer of accrued leave: MERP; or employee's HRA-VEBA account. If an employee fails to timely notify the Employer's payroll department of the employee's election for the transfer, then the Employer will transfer all accrued leave to the default selection, which is MERP. On the employee's retirement date, the employee's selection or the default selection is irrevocable.

No Individual Employee Election of Cash or Percentage. The employee shall have no option to receive a cash payout for the value of the accrued leave designated for contribution to a plan pursuant to this Section. In addition, the employee shall not have the option to contribute a larger or

smaller percentage of accrued leave than the percentage indicated in Article 5.7 above.

5.8 Paid Leave Oregon

Pick Up/Reporting of Employee Contributions. In addition to paying all required employer contributions under ORS 657B.150(2)(a), pursuant to ORS 657B.150(5), the City shall elect to pay for each employee the full amount of any required employee contributions under ORS 657B.150(2)(b) (as currently stated), to Paid Leave Oregon (0.6 of 1% of employee salary up to \$132,900 per year). The City will also report the employer pick-up of the employee contribution to PERS as subject salary consistent with PERS guidance, regulations, and/or statutes so that the employee can receive PERS service credit for the pay period for which the payment is attributable, including as permitted under ORS 238.008.

Taxation. If an employer covers the employee portion of the 1% contribution to Paid Leave Oregon pursuant to ORS 657B.150(5), that payment is taxable and will be properly recorded and taxed on employee statement of earnings and subsequent W2's to the extent required by state or federal law.

Use of Paid Leave Oregon Benefits. Use of the Paid Leave Oregon benefit will begin in September 2023. It is the City's expectation that employee follow the notification rules as outlined by the State, providing 30-day notice for leaves that are known in advance and 24-hour notice for those that are emergent to the extent not inconsistent with past-practice.

Coordination of Benefits. The City will run Paid Leave Oregon leave concurrent with other protected OFLA and FMLA leaves only as allowed by ORS 657B.025 and consistent with past-practice.

Supplementing Benefits. Supplementing benefits will be in accordance with State law or employees preference to the extent permitted, using City accrued leave banks, such as sick, vacation, holiday, and compensatory time. If an employee elects to supplement, the City will calculate the number of hours required to cover the difference between Paid Leave Oregon benefits paid to the employee and the employee's regular weekly average net earnings and deduct those hours from the leave bank(s) designated by the employee. This supplemental payment may be one pay period behind. The City will report the supplemental payment to PERS as subject salary such that the employee can receive PERS service credit for the pay period for which the payment is attributable, including as permitted under ORS 238.008.

It is essential that employees electing the supplement must remit to the City documentation of the Paid Leave Oregon benefits received immediately upon receipt of notification from Paid Leave Oregon for coordination of benefits to be accomplished between the City and State programs. Accrued leave banks may be used during the eligibility review process beginning on the benefit start date as reported by the employee on the application for Paid Leave Oregon benefits.

Continuation of Medical/Dental Benefits. While receiving Paid Leave Oregon benefits in active status as a City employee, the City will continue City-paid health and dental insurance. Employees are responsible for remitting any employee portion of premiums pursuant to payroll requirements for continuation of these benefits.

Continuation of Seniority & Probation. While receiving Paid Leave Oregon benefits in active status as a City employee the City will continue credit employees with seniority. An employee's probationary period will be adjusted proportional to their Paid Leave Oregon use to ensure adequate observation time for the City to evaluate suitability for regular status.

Rule of Construction. In its application of Paid Leave Oregon, the City agrees to abide by the rule of construction provided in ORS 657B.460, that Chapter 657B "establishes minimum requirements pertaining to family leave, medical leave and safe leave and may not be construed to preempt, limit or otherwise diminish the applicability of any employer policy, standard or collective bargaining agreement that provides for greater use of family leave, medical leave or safe leave under state or federal law."

Employees who transfer from the fire suppression work period (56-hour work week) to a 40-hour work week, or vice versa, will have their wages and leave accruals and balances (vacation, sick and holiday) converted to assure the same total dollar value for the given leave or time. The conversion formulas are as follows:

From 40-hour to 56-hour: $\text{Balance} / 2080 \text{ (hours worked annually on a 40-hour schedule)} \times 2912 \text{ (hours worked annually on a 56-hour schedule)}$

Example: 100 hours on a 40-hour week converts to 140-hours on a 56-hour week.

4. Vision Plan –The Kaiser vision plan provides coverage for vision examinations only. Employees may elect to enroll in the PPO \$500 vision plan for vision hardware and exams.
5. Additional Behavioral Coverage

The City's self-insured plans will include coverage of behavioral health treatment at the IAFF Center for Excellence, on the same reimbursement basis as any in-network provider facility. The City will also cover 80% of the cost of such treatment for bargaining unit employees enrolled in the city's Kaiser Insurance option.

6. NFPA 1582 Exams

Effective July 1, 2023, the City will cover the cost of one physical exam every year under the National Fire Protection Association Standard 1582 for each bargaining

unit member. The City may determine who performs the NFPA 1582 physical and may contract with a provider (including with a mobile screening service); or the City may allow bargaining unit members to use their personal provider. The parties agree that the NFPA 1582 physical will satisfy any obligation the City may have to pay for an annual preventive/wellness exam.

D. Opt-Out

The City shall contribute \$225 per month to an HRA-VEBA or HSA account for each fulltime employee who opts out of all City-sponsored health benefit plans (medical, vision, and dental). To be eligible for this opt out provision, all of the following conditions must be met:

1. The employee and dependents shall be enrolled in another employer's group health plan (e.g. a spouse's employer group plan) that provides minimum essential health coverage as required by the Affordable Care Act, and the employee shall provide documentation of such enrollment upon each annual optout election and upon City request.
2. The employee and dependents shall not use HRA-VEBA funds to purchase a health plan in the Marketplace, a state exchange, or through the individual insurance market.
3. The employee cannot revoke the opt-out election until the next open enrollment period for the coverage in the following calendar year, unless the employee experiences and provides timely notice and documentation of a qualifying event, including loss of other employer group health insurance coverage, a qualifying status change, or the acquisition of a new dependent.
4. The employee shall sign a waiver each year agreeing to these conditions.

13.2 Open Enrollment

The City will provide members an annual open enrollment for the Flexible Spending Account (IRS125).

13.3 Medical Insurance Committee

The City and Union will continue the joint labor/management committee to jointly explore options for other insurance coverage at reduced cost. Other unions representing City employees will also be invited to participate. The joint committee will make recommendations about ways to contain cost increases in the City's insurance plans.

13.4 Continuation of Benefits at Time of Contract Expiration

If at the expiration of this contract the monthly premiums for the insurance benefits provided by

this article exceed those in effect on June 30, of its final year the employee shall continue the payroll deduction in effect at contract expiration if they wish to maintain coverage.

13.5 Retiree Health Insurance

Retired employees shall be entitled to purchase group health benefits in accordance with State law. Retired employees who have not reached Medicare eligibility due to age or disability shall be entitled to purchase a group dental plan provided by the City by paying to the City the total cost for the plan enrollment they elect.

13.6 Voluntary Employee Benefit Association (VEBA)

"Eligible employees" for purposes of this section shall be defined as those members of the bargaining unit who have successfully completed their initial probationary period.

The City has adopted a HRA-VEBA account with the HRA-VEBA Trust to receive contributions of eligible IAFF employees.

For employees who elect to enroll in the PPO, HDHP, or Kaiser plan, the City will contribute at the rate of two percent (2%) multiplied by the top step payrate for the class of firefighter-EMT - Basic pay per month for each eligible employee to the IAFF VEBA.

The 2% contributions to the HRA VEBA Contributions will cease on December 31, 2023.

13.7 Medical Expense Reimbursement Plan (MERP)

Beginning January 1, 2024 the City will start contributions to the Medical Expense Reimbursement Plan (MERP).

"Eligible Employees" for purposes of this section shall be defined as those members of the bargaining unit who have successfully completed their initial probationary period.

The City will make contributions to the IAFF Medical Expense Reimbursement Plan (hereafter, the "MERP") of the Washington State Council of Fire Fighters Employee Benefit Trust (hereafter, the "Trust"), on behalf of each Eligible Employee, as set forth below. For this Section 13.7, the "Defined Class" of employees receiving contributions to the MERP of the Trust, as set forth below, consists of all Eligible Employees. No employee in the Defined Class shall be permitted to opt-out of the mandatory contributions or receive any portion of the contribution in cash.

Employees hired before July 1, 2003: The Employer shall make a mandatory contribution of \$250.00 per pay period on a pre-tax basis for every employee of the Defined Class hired before July 1, 2003.

Employees hired between July 1, 2003 and June 30, 2011: The Employer shall make a mandatory contribution of \$200.00 per pay period on a pre-tax basis for every employee of the Defined Class hired between July 1, 2003 and June 30, 2011.

REMITTANCE OF CONTRIBUTIONS: The Employer shall remit all monthly payroll contributions and accrued leave contributions directly to the Trust for the duration of the Contract. Those contributions shall be remitted directly to the custodian of the Trust within 30 days of the date the payment would have been payable to the employee.

The Employer hereby acknowledges receipt of the Trust Agreement governing the Trust and will comply with rules set by the Trust Office in regard to reporting and depositing the required contributions set forth herein.

REPORTING TO TRUST OFFICE: The Employer shall electronically submit to the Trust Office a per pay period report of contributing employees for each contribution sent to the Trust, in the format requested by the Trust, and received by the Trust Office within five (5) days of receipt of the contribution funds.

The Employer shall also provide an initial report of information for all contributing employees, as reasonably requested by the Trust; and shall send updates to this information to the Trust Office whenever the Employer has notice of changes to the information.

13.8 Special Physical Examinations

The City may require an employee to submit to a medical examination, including a physical or psychological examination, that is job related and consistent with business necessity under the ADA. Such examinations shall be performed by a HCP, or for a psychological exam, by a psychologist or psychiatrist, selected by the City. Results of the examination shall be limited to the employee's ability to perform the essential function of the job with or without reasonable accommodation or assessing the threat to self or others in performing the functions of the job. The City shall pay all costs related to such examinations not covered by the employee's health insurance.

If the employee disagrees with the results from the City's examiner, and has no current contrary medical opinion, the employee may at the employee's expense, seek re-examination by a professional of their choosing holding similar licensure as the City's examiner. The City will reimburse the employee for out-of-pocket costs charged for the examination by an in-network provider. However, for an examination by a psychologist or psychiatrist, the reimbursement will be for the out-of-pocket costs charged for the examination whether an in-network or out-of-network provider is used. In the event the opinion of the employee's chosen examiner conflicts with the City's examiner, both parties will choose a mutually agreed upon examiner for a third opinion. The opinion of the third examiner is binding on both the City, the union and the employee. The opinion of the third examiner shall not be subject to review by an arbitrator or other third-party adjudicator. The cost of the third-party examination will be borne by the City.

Employees, who attend a City-required physical examination or tests related to the physical examination process outside their normal work schedule, will be paid overtime at time and one-half for actual hours spent at the medical facility with a minimum of two (2) hours. The employee and employee's physician will make every attempt to complete the physical examination in one appointment. If additional appointments are necessary and scheduled by the physician, the employee will only be entitled to overtime at time and one-half for actual time spent at the medical facility.

Employees are not subject to the call back provisions as outlined in Articles 15.3 and 15.4 for additional physical examinations.

If return from LTD is delayed by a dispute over examination results, and the time exceeds the twenty-four-month period as defined in Article 11, any employment decision will be determined after the third party opinion is received or the dispute is resolved.

13.9 Unpaid Leave of Absence

The City paid benefits provided in this Article 13 shall cease from and after the thirtieth (30th) day of any unpaid leave of absence, with the exception of those employees who have been approved under the Federal Family Medical Leave Act, Oregon Family Leave Act, or other federal or state law, or on LTD and still employed under the provisions of Article 11.

13.10 Ambulance Use by On-Duty Personnel

Should on-duty personnel require an ambulance to transport them for personal medical care, the amount paid by the employee's health care provider shall be accepted as payment in full for such services.

ARTICLE 14 - UNIFORMS

If an employee is required to wear a uniform, it shall be furnished and replaced as necessary by the City. Uniforms shall be worn in accordance with the City's Standard Operating Guidelines. Special requests for deviation of the required uniform shall only be approved by the Fire Chief. The employee will be responsible for proper care and routine maintenance of the uniform. Uniform items, which become damaged to an extent not readily, and inexpensively, repaired by the employee, shall be repaired or replaced by the City. All uniform items issued by the City shall remain the property of the City and shall be turned in when the employee leaves employment. The City will follow IRS regulations regarding City issued work clothes as a taxable fringe benefit.

ARTICLE 15 - HOURS OF WORK, CALL-BACK AND OVERTIME

The parties agree that, pursuant to the FLSA, the regular work cycle for employees shall be a twenty-seven (27) day work cycle.

15.1 56-Hour Work Week

The hours of work for those employees engaged in fire suppression shall average fifty-six (56) hours per week based on a fifty-two (52) week year. The working shift shall consist of twenty-four (24) hours on duty followed by forty-eight (48) hours continuous off-duty time, subject to recall for emergency situations.

Employees working 56-hour schedules will be given one (1) Kelly day every 10th shift. This net effect will be an average annual work week of 50.38 hours. Also, references throughout the collective bargaining agreement to 56-hour work weeks (shift, schedule, etc.) shall be presumed to reference 50.38 hours.

Effective July 1, 2024, employees working 56-hour schedules will be given one (1) Kelly day every 8th shift. This net effect will be an average annual work week of 49.10 hours. Also, references throughout the collective bargaining agreement to 56-hour work weeks (shift, schedule, etc.) shall be presumed to reference 49.10 hours.

The average annual work week is calculated using the following equations:

Average Days per Year: $365+365+365+366=1461/4 \text{ years} = 365.25$

Average Weeks per Year: $365.25/7 \text{ Days per Week} = 52.18$

Average Shifts per Year: $365.25/3 \text{ shifts} = 121.75$

Kelly Day Adjusted Shifts per Year: $121.75 - 15 \text{ Kelly Shifts per Year} = 106.75$

Average Annual Work Hours: $106.75 \times 24 \text{ hours} = 2562$

Average Annual Work Week Hours: $2562/52.18 = 49.10$

The practice of Kelly Day Exchange for all classifications (the moving of a scheduled Kelly Day to an open or vacant track) will be discontinued. The practice of Kelly Day Trade (an employee assigned to the same shift trades with another employee assigned to the same shift and within the same classification) will be permitted.

The parties have agreed to FLSA days off ("Kelly Days") for shift employees in lieu of pay. Each Kelly Day will consist of twenty-four (24) hours of FLSA time off.

The City will maintain authority to determine the assignment of Kelly shifts. Generally, employee track assignments will be the key consideration in the rotation of Kelly days. The needs and priorities of the Department shall also be considered. Battalion Chiefs will pick the Kelly Days based on seniority within their classification independent of other employees.

Personnel who are transferred or change classification, will assume the Kelly Day track of the person/position they are replacing. Personnel who have not taken their Kelly day for the current rotation will be assigned a Kelly Day in the current rotation by Fire Administration. At no time should a transferee's Kelly day not be assigned in the appropriate rotation.

With the exception of a general recall of all personnel, employees are not eligible for overtime during the 24-hour assigned Kelly Day. Time worked shall not include any paid leave time such as vacation, personal or sick leave.

15.2 Call-Back and Return to Duty (56-hour employees)

- A. Employees who reside within a 25-mile radius of Fire Station #1 shall have first priority for unscheduled callbacks for any vacancies that occur during a given shift or for Greater Alarm callbacks.

Callback return to duty shall be defined as a return to work of an employee from off City premises after the completion of a scheduled shift, but before commencement of that employee's next scheduled shift.

- B. When employees through the classification of Captain are called back to fill a minimum staffing position or return to non-scheduled active duty (unscheduled meetings or other unscheduled City business), prior to their next regularly scheduled shift, they shall be guaranteed four hours work at one and one half (1 ½) their regular rate of pay. However, the employee will be offered the opportunity to go off duty when the activity is completed; if the employee elects to do so, the employee will be paid at one and one half (1 ½) the regular rate of pay for the hours actually worked. If the call back hours are consecutive to the regular shift, the hours paid shall be at one and one half (1-1/2) for the actual hours worked. When Battalion Chiefs are called back to fill a minimum staffing position or return to non-scheduled active duty (unscheduled meetings, or other unscheduled business) prior to their next scheduled shift, they shall be guaranteed a minimum of one (1) hour worked at one and one-half (1-1/2) their regular rate of pay. If the call back hours are consecutive to the regular shift, the hours paid shall be at one and one-half (1 ½) times the regular rate of pay for the actual hours worked.
- C. When employees through the classification of Captain are called back for a Greater Alarm, to support minimum staffing during a multiple alarm call back, or to staff emergency response vehicles placed in service temporarily, prior to their next regularly scheduled shift, they shall be paid at two (2) times their regular rate. If the callback is less than four (4) hours, they shall receive a guaranteed minimum of four hours pay at two (2) times their regular rate of pay regardless of actual hours worked. When Battalion Chiefs are called back for Greater Alarm to support minimum staffing during a multiple alarm call back they shall be guaranteed a minimum of one (1) hour worked at two (2) times their regular rate of pay. If the call back hours are consecutive to the regular shift, the hours paid shall be at two (2) times the regular rate of pay for the actual hours worked for all classifications.
- D. When employees through the classification of Captain return to work for previously scheduled staff meetings, training sessions or other non-emergency activities, such

employees shall be paid at one and one-half (1 ½) the regular rate for a minimum of two (2) hours. Battalion Chiefs shall be paid at one and one-half (1-1/2) the regular rate for actual hours worked.

- E. Employees who have completed their scheduled shift and are required to wait for relief to complete a fire or medic call, to attend a meeting, or to complete a report shall be paid at the overtime rate for actual time worked after the end of their scheduled shift.

15.3 40-Hour Work Week

- A. The hours of work for those employees assigned to fire prevention, training, emergency medical services and administrative duties shall be forty hours (40) per week, Monday through Friday, subject to recall for emergency conditions. Except in cases where emergency operations require, notice of change in an employee's work schedule arising from other than transfer or promotion shall be given to the affected employee not less than seven (7) calendar days prior to the effective date of the change. If the schedule change affects hours of work on Saturday or Sunday, not less than fourteen (14) calendar days' notice will be given prior to the effective date of the change. The employee and supervisor can waive the notice requirements by mutual agreement.
- B. Forty-hour work week schedules may be composed of five (5) - eight (8) hour days, or four (4) - ten (10) hour days, or a flexible schedule in each seven-day period at the discretion of the Fire Chief. Flexible schedules may be considered for those people who are not working twenty-four (24) hour shifts.

15.4 Call-Back Time (40-Hour Employees)

- A. If a 40-hour employee other than a Battalion Chief is called in to commence work more than one (1) hour before the regularly schedule workday, or is called back after having left the job site, the employee shall receive a minimum of two (2) hours overtime pay.
- B. If an employee is called while off duty regarding an investigation or code issue and is not on standby, the employee shall receive a minimum of fifteen (15) minutes of overtime pay.

15.5 Overtime Rate

Overtime pay shall mean one and one-half (1 ½) the employee's regular rate of pay. Overtime shall apply to all employees under the following conditions:

- A. 56-Hour Employees - For employees assigned in firefighting and rescue operations, overtime shall occur for those hours such employees are assigned to duty:
 1. For more than a twenty-four (24) hour shift, or
 2. For more than the number of hours that may be worked at the regular hourly rate within the work period determined by the City in accordance with the Fair Labor Standards Act.

3. On a twenty-four (24) hour shift beginning one (1) or two (2) days earlier than the employee's next regularly scheduled shift as a result of a reassignment from A Shift to B Shift, or B Shift to C Shift, etc. In such event the employee shall receive twenty-four (24) hours of unpaid leave for the shift they would have worked if the reassignment had not occurred.
- B. 40-Hour Employees - For employees assigned and/or scheduled in the fire prevention, EMS coordination and training functions, overtime shall occur under the following conditions:
1. Work activities in excess of forty (40) hours in a normal or split weekly schedule, unless a memorandum of agreement has been reached between the City and the Union, which provides for another arrangement.
 2. Management will not attempt to avoid paying overtime by adjusting an employee's schedule, in accordance with state law. Employees will still work their normal schedule, with exceptions as listed in articles 15.3, 15.4, or other applicable articles.
- C. Overtime pay for persons assigned to EMS or Training shall be based on the employee's base wage plus the premium for such assignment provided by Article 20.5 unless overtime hours are associated with shift work in the EOD (work assigned as a member of an engine or ladder company, ambulance crew or BC car). In that event overtime pay shall be based on the employee's base wage without EMS or TO assignment premiums.
- D. However, overtime for all employees shall not apply when any employee trades duty shifts, except as may be required by the Fair Labor Standards Act.
- E. For all employees, overtime eligibility provisions are not cumulative. An employee shall not be entitled to multiple overtime compensation even though:
1. More than one (1) of the conditions in this section and article may apply with respect to a particular unit of time, or
 2. An employee (other than a Battalion Chief) is called back again within the time frame encompassed by an earlier callback minimum. In this latter instance, the second callback shall entitle the employee to two (2) hours at one and one-half (1½) the employee's regular rate of pay.
- F. With the exception of fire prevention, training and EMS division employees (40-hour a week employees), all overtime earned by employees shall be compensated in pay. In lieu of overtime pay, fire prevention, training and EMS employee may elect credit for one and one-half (1½) hours of compensatory time off for each eligible overtime hour worked. Compensatory time off may be accrued to a maximum of one hundred twenty (120) hours. Employees may request payment for accrued compensatory time and said request must be submitted in writing at least ten (10) calendar days in advance of the next pay date. The City will pay on such requests at the next payday.
- G. Hours worked shall include paid absences for purposes of determining hours

compensable at the overtime rate.

- H. The City may restrict the assignment of overtime work on twenty-four (24) hour shifts to employees regularly assigned to fifty-six (56) hour workweeks.

15.6 Shift Trade

Duty shift trading shall not entitle the employees involved to any extra compensation over and above their regular rate of pay. All shift trading shall be in accordance with procedures established by the City. The City may deny approval for shift trading based on the City's determination that a trade may harm or impair operational readiness and/or effectiveness or for disciplinary reasons.

15.7 Work Week

For purposes of determining overtime eligibility only, the normal work week shall be the period beginning 0800 on Monday and ending at 0759 the following Monday. Employees who must change their work schedule between a 24-hour shift (56-hour week) and an eight (8) hour day (40-hour week), shall be governed by Article 6 and the following:

The City will exercise either of the two options described below on a case-by-case basis. In all cases, however, the employee will be notified in advance which option the City is exercising. Both options assume a duty week beginning Monday at 0800 hours and ending the following Monday at 0759 hours for both 40- and 56-hour duty week employees.

For Purposes of Training Leave & Return to Emergency Operations:

Option A:

This option includes moving an employee to a 40-hour duty week. Whenever possible, a duty week will not commence mid-duty week. The employee will return to shift work on their shift during the following duty week (i.e., after the following Monday at 0800 hours). The employee will have the opportunity to work their shift on Saturday or Sunday at the 56-hour overtime rate if there is a minimum staffing need or if the employee's check will be short for the pay period without working this additional shift. Under this scenario there is no guarantee of a minimum number of hours. It would, therefore, be possible that if an employee opted not to work, they could have a short paycheck.

Option B:

Under this scenario the employee remains on the 56-hour duty week schedule. On assigned shift days, the employee is paid for the full twenty-four hours. On non-assigned days they are paid only for productive hours (at the 56-hour overtime rate). When the employee returns, they are responsible to work their next shift. If an employee returns on their scheduled shift day, it will be at the Department's discretion as to when the employee will return to duty. In most cases where the employee is returning to Salem before 2000 hours they will be instructed to return to duty on that shift.

Option A would be used in nearly all cases of light-duty assignment and for long-term

training or assignments (usually greater than one 40-hour week or three consecutive shifts). The less expensive (to the City) option will be used if there would be a significant difference in cost.

15.8 Emergency Operations Personnel Temporary Assignment to 40 Hour Work Week

Leave accruals will remain at the 56-hour rate pursuant to Article 4.1A, and as such, there is no holiday pay or accrual when temporarily assigned. With the exception of those receiving workers' compensation benefits, employees may use leave without pay or vacation time for a holiday during a 40-hour light duty assignment or at the discretion of fire management, the employees will be offered a flexible or alternative work schedule. Probationary fire fighter employees assigned to the Training Academy (phase I Training) will be afforded an alternative 40-hour work schedule during a holiday week.

15.9 Daylight Saving Time

Employees shall be paid for hours actually worked on days or shifts lengthened or shortened as a direct result of changes between Pacific Standard Time and daylight savings time.

Employees scheduled for time off during daylight savings time will have their accruals reduced by the actual hours scheduled to be away from work (i.e. either 23 or 25 hours).

15.10 Scheduling of Work Activities

The scheduling of work activities during any and all hours on duty and the type of work activities assigned to all employees shall be determined at the sole discretion of the City. Such work activities may include, but are not limited to, training, safety education for the public, maintenance,

prevention, and other work activities as determined by the City, which are related to Fire Department services or operations.

15.11 Failure to Report to Duty

Bargaining unit employees who fail to report to duty for reasons other than those specified in Article 5.3 (Use of Sick Leave), injury leave, or any authorized paid leaves of absence, will receive no payment (wages) for the total amount of hours an employee fails to work. In certain instances, other than Trade-Time situations, at the sole discretion of the Fire Chief, an employee may be granted a commensurate reduction in leave accruals rather than wages.

In conjunction with 15.6 (Shift Trade), a bargaining unit employee who fails to report to duty for a Trade-Time situation, at the discretion of the Fire Chief, will forfeit wages for each hour of work (rounded to the nearest quarter hour) the employee fails to report to duty. In instances where one or more employees are in question as to whom is responsible for reporting to duty, operational guidelines established by the City will be utilized to determine which employee will forfeit wages for failing to report to duty.

15.12 Peak Period Engine Company

A. Assignment:

Peak period engine companies are to be used to expand existing City services, and no more than two peak period engines will be placed in service at any one time. After peak service begins, the City and the Union will meet annually to discuss whether operationally and economically the City will establish shift hours for the expanded service, the final decision resting solely in the discretion of the City.

1. **City's Right to Assign.** The City has the right to select and assign adequate fire suppression personnel to staff a peak period engine company. The Department will allow employees to volunteer for the Peak Period Engine Company assignments but reserves its management right to assign an employee for other reasons, including, but not limited to operational, training, experience, or personnel needs. The Department's decision to allow use of volunteers does not constitute a past practice of the parties, nor establish a precedent for future assignments. The City retains the right to assign in accordance with Article 2 of the Collective Bargaining Contract between the City and Union.
2. **Notice Required.** The City shall provide at least two weeks' prior notice to any employee assigned to the Peak Period Engine Company.
3. **Assignment Duration.** Employees assigned to the Peak Period Engine Company shall be assigned for a minimum of two (2) years. If an employee is assigned to the Peak Period Engine Company involuntarily, the assignment shall be for nine (9) months. Employees assigned to the Peak Period Engine Company may petition the Fire Chief to return to a regular 56-hour work schedule for any reasonable reason, including but not limited to an emergency. Upon completion of an employee's assignment to the Peak Period Engine, the employee will be assigned to the same shift (A, B, or C) that the employee was assigned immediately prior to service on the Peak Period Engine Company. Assignments to the Peak Period Engine Company may be shortened at the department's discretion or last longer if mutually agreed upon by the employee and the Fire Chief.
4. **Assignment Schedule.** Assignments to the Peak Period Engine Company shall be based on a forty (40) hour work week. The selected schedule is subject to changes in starting days and ending days when the Department deems appropriate, or when a holiday falls on either a Monday or Friday. In accordance with Article 15.10 of this agreement employees assigned to the Peak Period Engine Company may be assigned to fill other Engine Company's for part or all of their scheduled hours.

The initial operating schedule will be four (4), ten (10) hour workdays, Monday through Friday, with shifts starting between 7 and 9 AM. The Department will post the weekly operating schedule for the Peak Period Engine Company at least six (6) months in advance. However, the Department may alter the operating schedule, including both hours and days of operations, at any time.

All hours of operation for the Peak Period Engine Company over forty (40) shall be first offered to those employees assigned to the Peak Period Engine Company. Operational hours for the Peak Period Engine Company in excess of forty (40) will be determined at the department's discretion.

B. Pay for Employees Assigned to Peak Period Engine Company

1. Regular Rate of Pay. Employees assigned to the Peak Period Engine Company shall be compensated at the forty (40) hour pay rate for the first forty (40) hours worked in a work week. The forty (40) hour rate shall be calculated by multiplying a member's fifty-six (56) hour rate by a 1.4 conversion factor. As specified in Article 6, the conversion factor is derived by dividing the annual working hours in a fifty-six (56) hour work week (2,912) by the number of annual working hours in a forty (40) hour work week, that being 2,080 hours.
2. Overtime. All work on a Peak Period Engine Company in excess of forty (40) hours in a workweek caused by holdover will be compensated at the appropriate classification and step of the forty (40) hour rate, multiplied by a factor of 1.5. All other overtime worked will be compensated at the appropriate classification and step of the 56-hour rate multiplied by a factor of 1.5.

C. Leave Benefits

1. Sick Leave. Sick Leave shall accrue at the forty (40) hour rate according to Article 5.2.
2. Vacation Leave. Vacation Leave shall accrue at the forty (40) hour rate according to Article 4.2 A. Vacation bidding for the Peak Period Engine Company shall be limited to those employees serving on the Peak Period Engine only. Vacation leave used by these employees will not be counted as being part of the employees allowed off at any one time under Article 4.1(B)(3), nor will there be a defined limit on the number of employees assigned to Peak Period Engine Company that may take vacation leave on any day the Engine is scheduled to be in service.
3. Holiday leave. Holiday Leave shall accrue at the forty (40) hour rate according to Article 4.4. Upon completion of the Peak Period Engine Company assignment, employees may choose to convert accrued holiday hours to vacation hours or cash out the holiday leave hours the first pay period after returning to the fifty-six (56) hour work schedule. Accrued holiday pay shall be cashed out at the forty (40) hour rate.
4. Compensatory Time. Employees may elect to receive compensatory time, instead of pay, for hours worked in excess of forty (40) hours in that same workweek. Compensatory time accrual shall not be allowed to exceed eighty (80) hours. Any compensatory time in excess of eighty (80) hours will be paid on the employee's next paycheck. Earned compensatory time shall be utilized only while serving as a member of the Peak Period Engine Company. Upon completion of the Peak Period Engine Company assignment, all accrued compensatory time shall be paid to employees on the first pay period after returning to the fifty-six (56) hour work schedule. Compensatory time shall be cashed out at the forty (40) hour rate.

ARTICLE 15A BATTALION CHIEF TEMPORARY ASSIGNMENT (40) HOUR WORK WEEK

The parties recognize and agree that on occasion it may be necessary to temporarily assign Battalion Chiefs working a fifty-six (56) hour per week assignment to a 40 – hour per week assignment for special assignments, and work that is time sensitive and essential to the needs of the City. The City shall have the right to select and assign a Battalion Chief to this assignment, provided that (1) this assignment shall be limited in duration and in no way used to replace, eliminate, or supplant Battalion Chiefs assigned to Emergency Operations on a fifty-six hour per week schedule. If the City elects to initiate this temporary assignment the following shall apply:

A. Notice Required

The City shall provide at least two (2) weeks prior notice to the Battalion Chief assigned to the Temporary Assignment, unless mutually agreed upon by both the City and the employee, in which event the effective starting date may commence earlier.

B. Assignment Duration

If an employee is assigned involuntarily, such assignment shall not exceed thirty (30) days. In the event such assignment is mutually agreed upon by both parties, the assignment may last up to nine (9) months.

C. Assignment Schedule

If a Battalion Chief is temporarily assigned to a forty (40) hour work week, the duty week shall begin Monday at 0800 hours and end the following Monday at 0759 hours. The hours of work for this temporary assignment to a forty (40) hour workweek schedule may be composed of five (5) – eight (8) hour days, or four (4) – ten (10) hour days at the discretion of the Fire Chief.

D. Overtime Rate

Overtime pay shall mean one and one-half (1-1/2) the employee's regular rate of pay. For an employee assigned to this temporary assignment, overtime shall occur under the following conditions:

1. Work activities in excess of forty (40) hours in a normal or split weekly schedule, unless a memorandum of agreement has been reached between the City and Union, which provides for another arrangement.
2. During normal working days (Monday through Friday for a five (5) day work schedule and Monday through Thursday for a four (4) day work schedule), if the City requires or allows the employee to assume the duties of an EOD Battalion Chief the employee shall receive overtime immediately following their normal work day during the temporary assignment (eight (8) hours for a five (5) day work week, and 10 hours for a four (4) day work week) and ending at 0800 hours of the following day, or at the time they are off duty. Overtime worked during this time shall be at the fifty-six (56) hour rate. Any overtime worked not assigned as an EOD Battalion Chief will be paid at a (40) hour rate of pay.
3. During the temporary assignment, if mutually agreed upon by the employee and the

City, an employee assigned to this temporary assignment may work on a weekend shift. Overtime worked during this time shall be at the fifty- six (56) hour rate.

4. Battalion Chiefs in conjunction with the Deputy Chief of Operations will continue to maintain the existing tracking methodology as it relates to overtime hours that have been in place prior to the implementation of this contract, to ensure that Battalion Chiefs assigned to this temporary assignment have equal opportunity for overtime assignments.

E. Shift Trade

Per section 15.6, a Battalion Chief on a temporary 40-hour assignment will be eligible to shift trade during non-assigned working hours. Duty shift trading shall not entitle the Battalion Chiefs involved to any extra compensation over and above their regular rate of pay. All shift trading shall be in accordance with procedures established by the City. The City may deny approval for shift trading based on the City's determination that a trade may harm or impair operational readiness and/or effectiveness or for disciplinary reasons.

F. Conversion of Wage and Benefits Accrual

Battalion Chiefs, who are temporarily assigned to this assignment from a fifty-six (56) hour workweek to 40-hour workweek, will have their wages, vacation, and sick leave accruals converted to assure equivalent salary and leave accruals for the time assigned to the temporary assignment.

1. Accrual & Maximum Accumulation - Employees shall accrue vacation leave as follows, based upon length of continuous service and may accrue up to but not exceed the following maximums:

<u>Months/Service</u>	<u>Per Pay Period</u>	<u>Per Year</u>	<u>Max. Accumulation</u>

169 - 228 months	6.231	162 hours	324 hours
229 - 288 months	6.923	180 hours	360 hours
289 or greater	7.308	190 hours	380 hours

40-Hour Employees who have reached step 6 may elect to save up to two (2) years of vacation accrual. Use of these hours for purposes other than FMLA, OFLA or injury leave under Article 5.5.D. is prohibited unless permission is granted by the Fire Chief for unusual circumstances. Vacation balances shall be no greater than two (2) times an employee's annual benefit, unless permission of the City is given, at the Fire Chief's request, because of some unusual circumstance.

2. Holidays - Employees who are assigned to a forty-hour (40) work week shall receive eight (8) hours paid leave for each holiday specified in this section, if it falls during the course of their temporary assignment. In addition to such paid leave, eight (8) hours shall be deducted from the employees' total number of hours of holiday leave

accrued to date.

- a. Those employees who request and are approved to work a 4/10 Plan (40-hour work week) shall receive eight (8) hours paid leave for each of the eligible holidays and eight (8) hours shall be deducted.
- b. Those employees who are assigned to work a mandatory 4/10 Plan (40-hour work week) shall receive ten (10) hours of paid leave for each of the eligible holidays and ten (10) hours shall be deducted.

The following days shall be recognized and observed as "holidays":

New Year's Day

 President's Day
 Memorial Day
 Juneteenth
 Independence Day
 Labor Day
 Veteran's Day
 Thanksgiving Day

3. Special Holidays - In addition to the foregoing, any other day declared to be a "holiday" by the City Council of the City of Salem, Oregon, shall be deemed a "holiday" the same as if enumerated in this section.
4. Weekend Holidays - Whenever a holiday listed in 15 A (G)(2), above, falls on a Saturday, the preceding Friday shall be observed as a holiday; whenever a holiday falls on a Sunday, the following Monday shall be observed as a holiday.
5. Holidays During Paid Leaves - Whenever a holiday occurs during an employee's authorized leave with pay, the hours of such leave shall be charged to holiday time. An employee may use accrued holiday time in conjunction with vacation time.
6. Holidays Worked - An employee who is required to work on a holiday shall be paid for hours worked as though it were not a holiday. In addition, as holiday compensation, the employee shall receive 1.0 times their regular rate in accrued holiday time to a maximum of the hours assigned, plus .5 times their regular rate in pay. Such additional holiday compensation shall be paid for work performed only on actual holiday dates specified in section 15 A (G)(2)(a)(b) of this Article and shall not be paid for time worked on any other dates.
7. At the conclusion of the temporary assignment, any holiday hours accrued during the assignment leave shall be cashed out at the 40 hour rate.

ARTICLE 15B FLOATER BATTALION CHIEF

All matters relating to rates of pay, hours of work, and other conditions of employment are covered by the CBA between Salem Professional Firefighters IAFF Local 314, Battalion Chiefs, and the City of Salem, with the exception of the listed items.

A. Hours of Work

The Floater Battalion Chief will not be assigned to a specific shift. The Floater Battalion Chief shall work a 56 hour work week following the standard 120hrs/ 120hrs/ 96hrs payroll schedule in accordance with Article 15.1. All hours will be assigned in 24 hour increments. Overtime will be calculated based on exceeding the assigned hours of work by pay period as outlined in the CBA.

B. Schedule

At least one month in advance, the Battalion Chief's will disclose their vacation dates and confirm their Kelly Day(s) for the following month, which shall not be moved to another date once scheduled. BC's may request up to one (1) additional unscheduled vacation day within the month once the Floater BC schedule has been finalized.

The Floater Battalion Chief schedule shall be assigned at the monthly Emergency Operations Division meeting or no later than one (1) month in advance. At a minimum, the monthly schedule will include two (2) complete pay periods.

The finalized monthly schedule can be changed at any time during the month if mutually agreed upon by the Assistant Chief of Operations and the Floater Battalion Chief.

The maximum hours of scheduled work will not exceed forty-eight (48) continuous hours.

C. Assignments

If an employee is assigned involuntarily as the Floater Battalion Chief, such assignment shall not exceed 270 days, or nine (9) months. If the assignment is mutually agreed upon by both parties, the assignment shall be a minimum of eighteen (18) months.

D. Kelly Days

The Floater Battalion Chief will have a Kelly Day scheduled in accordance with Article 15.1.

E. Vacation Leave Scheduling

The Floater Battalion Chief will be required to exhaust their annual vacation accrual within the fiscal year. Vacation requests are to be submitted to the Chief of Operations at the earliest convenience after the monthly schedule has been finalized.

ARTICLE 16 - SENIORITY, LAYOFF AND RECALL, PROMOTIONS DEMOTIONS AND VACANCIES

16.1 Definitions

- A. For purposes of determining the order of reduction in force or demotion, voluntary or involuntary, "seniority" is determined by all time served in the classification the employee is returning to and would include time served in a higher classification provided that such time these classifications were continuous. Where two (2) employees have the same appointment date, the employee who ranked higher on the eligibility list from which they were appointed shall be deemed to be the senior employee.
- B. For all other purposes of this contract, "seniority" means length of continuous service as an employee of the Salem Fire Department, computed from the date of the employee's original hire ("continuous service date"). Where two (2) employees have the same continuous service date, the employee who ranked higher on the hiring eligibility list shall be deemed to be the senior employee.

16.2 Continuous Service

As used herein, "continuous service" includes all authorized leaves of absence but does not include any period between an employee's layoff and recall. In the event of layoff and recall, the employee's continuous service date shall be adjusted to reflect a total length of continuous service which does not include time spent on layoff status. Termination of employment (other than layoff of a career employee) shall void the employee's continuous service date, and if the employee should subsequently be hired again by the City, the most recent date of hire shall be the continuous service date for all purposes of this contract.

Employees re-employed under Civil Service Rules from separation of employment for non-disciplinary medical reasons, shall have their continuous service date adjusted for the purposes of determining seniority, vacation accrual rates, and vacation bidding. The adjustment shall credit their service prior to separation.

16.3 Order of Layoff

In the event of reduction in work force within the bargaining unit, layoffs within each affected classification shall be made in inverse order of seniority. For purposes of this section only, the classifications of Firefighter-EMT-Basic and Firefighter-Paramedic shall be considered as a single affected classification, and the order of reduction shall be determined pursuant to sections 16.1 and 16.5 from among the combined total of employees in both classifications.

Layoff shall occur as described above, except that the City may retain sixty-nine (69) of the most senior paramedics for the staffing of the department paramedic program. In the event that an engine company and/or ALS ambulance is eliminated, the sixty-nine (69) will be reduced by three (3) Firefighter-Paramedics for each engine company and/or six (6) for each ALS ambulance eliminated. Similarly, if the City establishes additional engine companies and/or ALS ambulance services, the number of paramedics retained will increase by three (3) for each additional engine company and increase by six (6) for each additional ambulance service.

16.4 Probationary Employee

No career service employee shall be laid off in a classification while there are probationary employees still employed in that classification. As used in this section, "probationary employee" means an employee who has not achieved career status in the affected classification.

16.5 Bumping

Any employee in the unit who is to be laid off or demoted, voluntary or involuntarily and who has advanced to their present classification from a lower classification in which they had successfully completed the probationary period shall be given a position in such lower classification, provided that a position in that classification is authorized and funded in the Fire Department budget. If one (1) or more authorized positions exist in the lower classification, but none is vacant, the employee laid off from the higher classification shall "bump" the least senior employee in the lower classification.

16.6 Layoff List

For a period of two (2) years following the date of layoff or reduction to a lower classification, an employee shall be classified as on layoff status and their name shall be maintained on a "layoff eligible list" for the classification from which they were laid off. The order of the names on the layoff eligible list shall be in inverse order of their layoff (the last employee laid off shall be placed at the top of the list). At the end of two (2) years, or sooner if the employee notifies the City in writing that the employee no longer wishes to continue on layoff status, the employee's name shall be removed from the layoff eligible list, unless an extension is granted by the City, and they shall be deemed terminated. An employee on layoff status shall promptly inform the City of any change of address and shall be deemed terminated if a letter sent by certified mail (return receipt requested) to their last address recorded with the City is returned unclaimed.

16.7 Recall of Employee

Recall of employees to active employment within each job classification shall be made in order of their names on the layoff eligible list. An employee shall be deemed terminated and their name removed from the list if they do not report for work within fourteen (14) calendar days of written notice of recall.

16.8 Other

All positions in classifications in this unit shall be filled only in accordance with the provisions of this Article as long as employees remain on layoff eligible lists for those classifications. No bargaining unit positions, including temporary out-of-class assignments, shall be assigned to part-time workers or retirees unless the City first makes all reasonable efforts to fill such assignments with the bargaining unit members and is unable to do so.

16.9 Promotions/Vacancies

The promotional process shall be governed by the City's Civil Service System contained in the City Charter and the Civil Service Rules and the parties agree to the following additional criteria:

- A. The parties recognize the importance of a fair and impartial promotional system.
- B. The City will provide the Union with thirty (30) days written notice prior to holding open vacated positions in the classification of Fire Apparatus Operator/Engineer, Captain and Battalion Chief.
- C. A vacated position in the Fire Apparatus Operator/Engineer, Captain, and Battalion Chief classifications cannot be held open for more than ninety (90) days by which time the City will either fill, eliminate, or reclassify the position.
- D. If a Fire Apparatus Operator/Engineer or Captain, or Battalion Chief position is held open, then during the ninety (90) day period, the highest employee on the current promotional list for the affected classification will be assigned WOC for the duration of the open vacancy. At no time shall there be less than one career Battalion Chief on duty at all times.
- E. The ninety (90) day period will not be used to bridge promotional lists.

16.10 Career Changes Between EOD and Prevention Divisions

When an employee moves positions between the EOD and Prevention Divisions, the employee will be placed at a pay scale step so that their hourly base rate of pay will be equal to or greater than their converted hourly rate as a 56-hour employee less any applicable incentive pay.

ARTICLE 17 - PROBATIONARY EMPLOYEES

17.1 Benefits During Probation

- A. Probationary employees are entitled to full benefits as expressly provided in this contract; provided, however, that employees serving their initial probation to the City shall not use accrued paid leaves, except sick leave, until the start of the seventh (7th) month of employment from the employee's anniversary date (their first scheduled shift in the seventh month).
- B. Employees serving their initial probation to the City may use accrued sick leave during the probationary period as provided in Article 5.3.

17.2 Length and Terms of Probation

- A. During the initial twelve (12) month probationary period, probationary/non-career status employees shall serve at the discretion of the City and have no property right to their employment for any purpose whatsoever. Disciplinary action, to include discharge, taken against any non-career status employee shall be without recourse through Article 18 of this contract.
- B. The probationary period for persons promoted or re-employed from other than a layoff eligibility list shall be six (6) months.
- C. After the probationary employees 6-month review, probationary employees will be afforded the opportunity to be placed on the overtime list(s). However, employees on work plans will not be afforded this right until successful completion of the work plan and approval of the supervisor of record.

ARTICLE 18 - GRIEVANCE PROCEDURE

18.1 Definitions

For purposes of this contract, a grievance is defined as a dispute about the meaning or interpretation of a particular clause of this contract, or about an alleged violation of this contract brought by:

- A. An employee in the bargaining unit and covered by this contract.
- B. The Union Executive Board as it affects a specific member or members of the Union.
- C. The City.

The term grievant refers to the one bringing the grievance (individual employee, Union Executive Board or the City) as appropriate in the particular case. Union as used in Article 18 refers to the Union Executive Board.

Two (2) Union representatives may assist in processing a grievance through this grievance procedure except that the Union shall be free to use as many representatives as it desires to help present its case to the arbitrator.

18.2 Initiation of Grievances

Grievances shall be initiated within ten (10) days from the date of the alleged violation or dispute or the grievant's first knowledge thereof. The grievance shall be in writing and shall include the following information:

- A. A statement of the grievance and the facts upon which it is based;
- B. Date(s) on which the alleged contract violation occurred, or the date the grievant learned of it, whichever is later;
- C. The specific provision of this contract asserted to have been violated by the City's or the Union's actions; and,
- D. The remedial action requested.

18.3 Detailed Procedures

If the City is the grievant, the Union will be notified within 10 days of the alleged violation or dispute or the City's first knowledge thereof. If the matter is not resolved, the City within 30 days after the Union is notified may proceed to arbitration using one of the methods described in (A), (B), or (C) of Step 4. Unless mutually agreed otherwise, the method described in (A) shall be followed.

Grievances filed by the Union or an individual employee shall be processed as follows, starting at step 1, except that grievances over discipline and grievances that affect the Battalion Chiefs' terms and conditions of employment shall be commenced at Step 2:

- Step 1: A copy of the grievance shall be delivered to the employee's immediate supervisor of Chief Officer rank. A meeting with the Chief Officer, the grievant, their immediate supervisor (if other than the Chief Officer) and Union representative(s) shall be convened upon the request of any of these parties. The Chief Officer shall render a written decision within ten (10) day of the filing of the grievance or the meeting (if one is called), whichever is later. If the written decision does not resolve the grievance or if the Chief Officer fails to respond timely to the grievance, the grievant shall have until twenty (20) days from the receipt of the written response or, if no response is given, from the end of the ten-day response period to carry the grievance to Step 2.
- Step 2: To carry the grievance to Step 2, the grievant shall file with the Assistant Chief of Operations a copy of the original grievance, a copy of the Step 1 response, and a written explanation of why the Step 1 response was not satisfactory. A meeting with the Assistant Chief, the grievant, and Union representative(s) shall be convened upon the request of any of these parties. The Assistant Chief shall render a written decision within ten (10) days following the filing of the grievance at Step 2 or the Step 2 meeting (if one is called), whichever is later. If the written decision does not resolve the grievance or if the Assistant Chief fails to respond timely to the grievance, the grievant shall have until twenty (20) days from the end of the ten-day response period to carry the grievance to Step 3.
- Step 3: To carry the grievance to Step 3, the grievant shall file with the Fire Chief a copy of the grievance submitted at Step 2 together with the written decision of the Assistant Chief. A meeting with the Fire Chief, the grievant, and Union representative(s) shall be convened upon the request of any of these parties. The Fire Chief shall render a written decision within ten (10) days following the filing of the Step 3 grievance or the Step 3 meeting (if one is called), whichever is later. If the written decision does not resolve the grievance or if the Fire Chief fails to respond to the Step 3 grievance, the grievant shall have until twenty (20) days from receipt of the written response, or if no timely response is given, from the end of the ten-day response period to carry the grievance to Step 4.
- Step 4: To carry the grievance to Step 4, the Union (but not an individual employee grievant) may request the issue be submitted to an arbitrator using one of the methods described in (A), (B), or (C) below. Only the Union may prosecute the grievance in arbitration, and the Union may not assign or delegate the prosecution of the grievance. Unless mutually agreed otherwise, the method described in (A) shall be followed:
- A. The parties shall jointly request the State Mediation and Conciliation Service for a list of seven (7) arbitrators drawn from a pool of arbitrators who reside in Oregon. The parties shall then select one of the arbitrators by alternately striking one (1) name from the list until only one (1) is left. The one (1) remaining name shall be the arbitrator. The order of striking shall be by lot. The names shall be struck on a single day mutually agreed to by the parties.
 - B. The parties may mutually agree to request a list of five (5) arbitrators from the Employment Relations Board list. The parties shall alternately strike one (1) name from the list, until only one (1) is left. The one (1) remaining shall be the arbitrator. One (1) day will be allowed for the striking of each name, if needed.

- C. The parties may also mutually agree to select an arbitrator or a panel of two (2) advocate arbitrators and a neutral chairperson arbitrator by any method mutually agreed upon.

Should the City fail to timely respond to the grievance at any step, the grievance shall be deemed denied and the Association may elect to immediately advance the grievance to the next step by written notification, unless the parties mutually agree to extend the applicable timelines.

18.4 Arbitration

The arbitrator shall set a hearing and, upon conclusion of that hearing, render a written decision within thirty (30) days of the close of the hearing. The arbitrator's written decision shall include their findings of facts and opinions as well as their conclusion and award. The powers of the arbitrator shall be limited to determination of issues of facts and application thereto of the provisions of this contract, as the same may be within the scope of arbitration. The arbitrator shall have no power or authority to alter, abridge, modify, vacate, or amend any of the terms of this contract; nor to substitute their judgment for that of the City as to any matter within the City's discretion under Article 2, MANAGEMENT RIGHTS; nor to consider, decide, or act upon any condition or circumstance not expressly provided for in this contract. The decision of the arbitrator shall be binding on both parties. The costs of the arbitrator shall be borne by the losing party. Each party shall be responsible for all costs of preparing and presenting its case to the arbitrator (including its own attorney fees, if any) and for reporter's or recording costs for making a record of the proceedings at such party's request. Arbitration of grievances shall be in accordance with procedures listed in this article.

18.5 Time Limits

Any or all-time limits specified in the grievance procedure may be waived by mutual consent of the parties. Failure to submit the grievance in accordance with these time limits without such waiver shall constitute abandonment of the grievance. As used in this Article 18 "days" shall mean calendar days.

18.6 Abandonment of Grievance

Until an arbitrator is appointed, a grievance may be terminated voluntarily at any time upon receipt of a signed statement from the Union or the individual employee grievant that the matter has been satisfactorily resolved. After a grievance has been carried to step 4, only the Union may terminate the grievance. A grievance withdrawn by an individual grievant shall not constitute a precedent with regard to interpretation of the contract.

18.7 Modification of Rules

The parties may, by mutual agreement in a particular case, provide for any modification or addition to the rules and procedures herein set forth, which agreement shall not affect subsequent cases.

18.8 Compensation of Representative and Witnesses

The grievant and one (1) Union representative, in meetings called for in STEPS 1 through 3 of section 18.3, shall be permitted to attend such meetings and hearing without loss of pay if such

meetings and hearing occur during the employee's duty period. The Union representative shall be similarly treated as the grievant if they are involved in meetings at STEPS 1 through 4. Up to four (4) employees who may be called as witnesses by the Union to the arbitration hearing shall be permitted to testify at the hearing without loss of pay if the giving of testimony occurs during the employee's duty period. The names of any employees to be called as witnesses in the arbitration hearing shall be given by the Union to the City at least seventy-two (72) hours prior to the hearing. The Union agrees, wherever practical, to request that on-duty personnel be summoned just prior to their testimony so as to minimize the impact of their absence of work on department operations.

18.9 Exclusion of Other Disputes

The following matters are not subject to the grievance procedure of this contract:

- A. Any grievance which is not filed in accordance with the provisions of 18.2 or does not meet the definition of a grievance in 18.1.
- B. Any matter which is not covered by this contract.

18.10 Grievance from Disciplinary Action

Imposition of discipline may be appealed only through this contract and as provided in Article 19 – Discipline, Representation Rights and Appeal. Pay for the employee and one (1) Union representative shall be administered as described in section 18.8.

ARTICLE 19 - DISCIPLINE, REPRESENTATION AND APPEAL RIGHTS

A. Discipline for non-probationary employees may be imposed only for just cause.

B. Discipline includes the following actions and shall normally be progressive:

1. Oral reprimand, which may be documented in writing;
2. Written reprimand;
3. Reduction in pay;
4. Suspension;
5. Demotion;
6. Termination from Employment

However, the disciplinary process may be entered, or discipline imposed at any step depending upon the severity of the incident causing the disciplinary action. In applying progressive discipline, reduction in pay is considered a substitute for suspension, and demotion will not be a necessary step before termination.

C. Major Discipline refers to reduction in pay, suspension, demotion or termination from employment. Major Discipline is subject to appeal under Article 18 of this Agreement up to and including arbitration. Minor Discipline refers to oral reprimand (whether or not reduced to writing) or written reprimand. Minor Discipline is not subject to appeal under Article 18 of this Agreement.

D. If the City disciplines an employee, every reasonable effort will be made to discipline in a manner which will not embarrass the employee before other employees or the public.

E. The City shall make a good faith effort to conduct interviews during regularly business hours and on an employee's scheduled shift. Employees directed to report for an interview during unscheduled hours will be paid for their time per terms of this Agreement.

F. Disciplinary interview for employees under investigation shall comply with the following guidelines:

1. Before the disciplinary interview, the City will provide to the employee a statement of charges and/or relevant facts as known to the investigator at the time of the notice that support the potential violations. This may include relevant reports written by employees and supervisors pertaining to the incident. A reasonable amount of time will be granted to consult with Union Representation prior to the interview being conducted.
2. An employee shall have the right upon request to have a Union representative present at a disciplinary interview.
3. A disciplinary interview will normally take place at city facilities.

4. The employee shall be entitled to such reasonable intermissions as may be requested for personal necessities.
5. A disciplinary interview shall be limited in scope to activities, circumstances, events, conduct or acts which pertain to the incident which is subject of the investigation. Nothing in this section shall prohibit the City from questioning the employee about information which is developed during the course of the interview.
6. The City shall audio record the disciplinary interview and a copy of the complete recording of the interview shall be furnished to the Union.

G. Investigations:

1. Disciplinary investigations shall be concluded without unreasonable delay.
2. The employee and the Union shall be notified in writing of the results of any investigation. For non-criminal investigations, those results must be presented in writing to the employee and the Union within a year from discovery by the City of the basis of discipline unless a criminal investigation of the same matter is ongoing. If not, the charges will be dropped.
3. If after the City conducts an investigation into the conduct of an employee, the City determines that the discipline to be imposed is minor (oral or written reprimand), the City may impose the discipline without a pre-disciplinary due process meeting (Loudermill).

H. Employee Records:

1. The City shall maintain one (1) official personnel file for all employees. This official file will be maintained by the Human Resource Department. These records shall be the official records of the City and shall contain official reports, memos, letters, personnel actions, etc., relating to employee performance and employment status.
2. An employee or the employee's representative may inspect a copy of the records on the premises of the Human Resource Department. Alternatively, a copy of the records may be requested by the employee or the employee's representative with reasonable advance notice and copy shall be furnished.
3. No information reflecting critically upon an employee shall be placed in any of the employee's personnel records that does not bear either the signature or initials of the employee indicating that the employee has been provided with a copy of the material. If the employee is unavailable or refuses to sign or initial the document, a notation shall be made on the document and shall be placed in the employee's personnel file. A copy of any such material shall be furnished to the employee by the department concerned, when it is placed in the personnel record. Information that may have an adverse impact on the employee that fails to follow this procedure will not subject the employee to progressive discipline.

4. If an employee believes that there is material in the personnel record which is incorrect or derogatory, the employee shall be entitled to prepare in writing an explanation or opinion regarding the particular material, and this shall be included as a part of the personnel record. If the employee believes that specific information should be removed entirely from the files, the employee may petition for such consideration to the City.
5. Documented oral and written reprimands shall remain active in an employee's personnel file for two years from the date of incident, unless the employee receives subsequent discipline within that time period in which case it remains active. Documented economic discipline (reduction in pay, suspension, demotion) shall remain active in an employee's personnel file for four years from the date of incident, unless the employee receives subsequent economic discipline within that time period in which case it remains active. However, an exception to the time period may be justified when a clear pattern of misconduct or other performance deficiency exists. Documentation which is stale may be retained by the City to comply with Oregon records retention law but may not be used for subsequent discipline or as evidence in any subsequent discipline proceedings.

ARTICLE 20 - COMPENSATION

In this Article: sections 20.1 through 20.3, and 20.5 through 20.12 shall apply to employees other than Battalion Chiefs; sections 20.4, and 20.13 to 20.15 shall apply to all employees.

20.1 Emergency Medical Technician Premium Pay

A. Roll-in/Elimination of EMT Premium Pay

Effective July 1, 2001, the City increased the base wage by three percent (3%), for all job classifications covered by this agreement, excluding classifications in the Fire Prevention Division. The increase was done commensurate with the elimination of the EMT-Basic premium pay previously given to EOD employees who held an EMT-Basic certification.

Effective with the signing of the July 1, 2004–June 30, 2007 Agreement the City will take an amount equal to the EMT-Paramedic premium dollars that would be paid to twenty-four (24) EMT-Paramedic Captains, divide that amount by thirty-six (36), and increase the current Captain base wage as listed in the salary schedule by that amount. The EMT-Paramedic premium will no longer be paid to Captains regardless of EMT certification.

B. EMT-Basic Training

Those current employees not covered in 10.2 (B), must maintain at least an EMT-Basic certification. Employees who involuntarily lose their certification through an administrative error through no fault of the employee will not be suspended or terminated, provided they are making reasonable progress towards obtaining EMT-Basic certification. However, this provision does not prevent discipline for misconduct that results in the loss of certification.

C. EMT-Basic Transporting (medic unit) Vehicle Assignment Pay

Any employee covered by this contract who is permanently or provisionally certified as an EMT-Basic pursuant to the laws of the State of Oregon, and who is assigned by the City to work on an Advanced Life Support (ALS) medic unit, shall receive, in addition to the employee's base pay, an amount equal to 3.8% percent multiplied by the top step hourly rate for the class of Firefighter-EMT-Basic for each hour actually worked in such assignment, rounded to the nearest half (1/2) hour.

20.2 Emergency Medical Technician Paramedic (EMT-Paramedic) Premium Pay

A. EMT-Paramedic Differential Pay

Except as provided in subsection C herein, any bargaining unit employee in the classifications of Fire Fighter/Paramedic or Fire Apparatus Operator/Engineer, who is permanently or provisionally certified as an EMT-Paramedic pursuant to Oregon law and who is assigned to suppression, training, or EMS shall receive, in addition to base pay an amount equal to:

- Ten percent (10%) effective July 1, 2023,

LD Work Back Retirees shall be considered "at-will" as it relates to job performance issues, and consistent with the City's HR Rules, do not have property rights, grievance rights, layoff or recall rights or an expectation of continued employment past the end of their assignment. This includes but is not limited to being ineligible to be placed on a work performance plan. If a LD Work Back Retiree is not able to perform to the level of the job expectation the LD Work Back Retiree may be dismissed or terminated from their assignment at any time by the City without recourse to the CBA grievance procedure. ARTICLE 31 - FAIR LABOR STANDARDS ACT

31.1 This contract incorporates agreements between the City and the Union on compensation and other matters subject to provisions of the Fair Labor Standards ACT (FLSA) and related regulations of the U.S. Department of Labor. The parties have agreed to wage levels since July 1, 1985, which are expressly intended to minimize employer costs associated with compliance with the Act, particularly with respect to overtime compensation payable for hours worked by emergency operations personnel above fifty-three (53) and less than fifty-seven (57) in the average work week. This reduction is described in Article 31.2 of the 1985-88 contract between the parties.

31.2 It is the intent of the City and the Union that the net reduction in wage rates referred to in 31.1 be a permanent adjustment in consideration of the additional overtime costs and income required by the Act. Accordingly, the City and Union recognize and agree that future comparisons of Salem wages with those paid in comparable jurisdictions should be based on the total monthly income of Salem employees inclusive of overtime pay for three (3) hours in each average fifty-six (56) hour work week.

31.3 If the City should be relieved from its legal obligation to comply with the Act during the term of this contract then the wages in effect on the date the obligation is relieved shall be multiplied by 2.46% to re-establish wage levels which would have been in effect if the City had not become subject to the Act. All other provisions of this contract which are expressly, and specifically, modified by the Act, shall also be changed to re-establish the status quo which existed before July 1, 1985.

The City is committed to maintaining a safe and healthy workplace for all employees by identifying the misuse of alcohol and drugs and assisting employees to overcome these problems through appropriate treatment and, if necessary, disciplinary action. The presence or treatment of a substance use problem will not excuse an employee from meeting performance, safety or attendance standards or following other City instructions.

32.2 Employee Assistance Program

The City has established an Employee Assistance Program (EAP) at no cost to the employee. The general purpose of the EAP is to reduce problems in the workforce and retain valued employees. Being at work under the influence of any controlled substance, including marijuana, or having such substances "present in the body" (excluding any substance lawfully prescribed for the employee's use which has not been obtained for the purpose of abuse) while on City property or in City vehicles or equipment at any time, or during work hours, including paid rest and meal periods. An employee has a controlled substance "present in the body" when the employee tests "positive" in any blood or urine test administered. An employee shall be deemed to test "positive" for cannabinoids (marijuana or hashish) if their urine test indicates 50 or more nanograms THC metabolites/ml.

- F. For purposes of this Article, the term "controlled substance" shall be defined in accordance with ORS 475.005(6).

32.4 Under the Influence

The term "under the influence" of controlled substances including marijuana or alcoholic intoxicants covers not only all the well-known and easily recognized conditions and degrees of impairment and intoxication, but any perceptible abnormal mental or physical condition which is the result of indulging to any degree in controlled substances, marijuana or alcoholic intoxicants which perceptibly tend to deprive the use of that clearness of intellect and control the employee would otherwise possess.

32.5 Discipline and Other Action

Prohibited conduct described in Section 32.3.A above shall result in termination. Prohibited conduct described in Sections 32.3B, 32.3C, 32.3D and 32.3E, shall result in actions specified in Section 32.8 below.

32.6 Mandatory Testing

- A. Where the City has reasonable suspicion to believe that an employee is under the influence of any alcoholic intoxicants or controlled substances, including marijuana, or has a controlled substance, including marijuana, present in the body, the City may require that the employee immediately consent and submit to field impairment tests, blood, urine or breathalyzer test. The City shall pay for the costs of the tests. A refusal to consent and submit to any of these tests shall subject an employee to immediate termination.
- B. When the employee is notified that they are required to consent and submit to such tests, or searches as described in Section 32.10 of this Article, they may request the presence of a Union representative to witness the tests or searches. The tests or searches may not be unduly delayed for more than one hour in order to wait for a representative. The absence of a representative shall not be grounds for the employee to refuse to consent and submit to such tests or searches. The presence of a representative shall not disrupt or interfere with the tests or searches.
- C. Before a supervisor, acting on behalf of the City under this policy, may require an employee to consent and submit to any test(s) specified in this section, or to search(s) specified in Section 32.10 which require reasonable suspicion, the supervisor must first obtain concurrence from the supervisor's department head or their designee that the information available to the City about the subject employee is sufficient to determine reasonable suspicion that prohibited conduct will be established as a result of such test(s) or search(s).
- D. The employee shall give consent to a blood, urine or breathalyzer test by signing a consent form. The form shall contain the following information:
 1. Employee's consent to release test results to the City;
 2. The procedure for confirming an initial positive test result for a controlled substance, including marijuana;
 3. The consequences of a confirmed positive test result for a controlled substance,

- including marijuana;
4. The consequences of a positive test for alcohol, including one at or above .02.
 5. A listing provided by the employee of legally prescribed and over-the-counter medications which may be in the employee's body;
 6. The right to explain a confirmed positive test result for a controlled substance, including marijuana, or a positive test for alcohol;
 7. The consequences of refusing to consent to the blood, urine or breathalyzer test.
- E. In the event that the blood or urine test results are positive for controlled substance(s), including marijuana, the City shall require that a second confirmatory test from the same sample be conducted, using gas chromatography mass spectrograph techniques or equivalent which also must be positive before concluding the employee has such substance(s) present in their body.
- F. If a blood or confirmed urine test is positive, the City will instruct the laboratory to retain the blood or urine sample for a period of not less than 30 calendar days from the date the tests are complete for the purpose of allowing the employee to conduct an independent test at their own expense at a laboratory approved by the City.
- G. The procedures followed under this Article to obtain, hold and store blood and urine samples and to conduct laboratory tests shall be documented to establish procedural integrity and chain of evidence. Such procedures shall be administered with due regard for the employee's privacy and the need to maintain the confidentiality of test results to an extent which is not inconsistent with the needs of this Policy. The employee shall be notified of the results of all tests conducted pursuant to this Policy.
- H. Nothing in this Article is intended to establish the City's right to conduct random blood or urine testing to detect the presence of alcohol or controlled substances, or to conduct such tests on any basis other than reasonable suspicion as described in Section 32.7 of this Article.

32.7 Reasonable Suspicion

For purposes of this Article, "reasonable suspicion" means that there is substantial basis for believing that, more likely than not, an employee possesses or is under the influence of alcohol, or a controlled substance, including marijuana, has .02% or more blood alcohol content, or has a controlled substance, including marijuana, present in the body. Circumstances which constitute a basis for determining "reasonable suspicion" may include, but are not limited to:

- A. A pattern of abnormal or erratic behavior;
- B. Direct observation of drug or alcohol use; or information provided by a reliable and credible source that an employee has engaged in prohibited conduct as defined in Section 32.3 of this Article;
- C. Presence of the mental or physical symptoms of drug or alcohol use (e.g., glassy or

bloodshot eyes, alcohol odor on breath, slurred speech, poor coordination and/or reflexes);

- D. A work-related accident in conjunction with other facts which determine "reasonable suspicion";
- E. Citing solely an "anonymous tip" does not qualify as reasonable suspicion.

32.8 Consequences of Test Results

- A. Test results which do not positively establish that the employee has engaged in prohibited conduct as described in Section 32.3 of this Article shall result in no further action against the employee related to an alleged violation of that section. The employee shall be informed of such test results.
- B. If an employee who has not previously committed prohibited conduct specified in Sections 32.3B, 32.3C, 32.3D, or 32.3E is found to have committed such prohibited conduct, the employee shall immediately submit to a medical evaluation by a doctor selected and paid by the City. The evaluation will determine the extent of the employee's use of, and dependence on, the applicable substance(s) and, if necessary, recommend an appropriate program of treatment, including but not limited to rehabilitation and counseling to prevent future use. If a program of treatment is recommended by the doctor, the employee shall enroll in it immediately. Any City payment contribution shall be governed by the Mental Health and Chemical Dependency benefit provisions of the applicable City health insurance plan. Failure by the employee to enroll in the recommended program or to complete it successfully shall result in their termination from employment.
- C. If an employee has previously committed prohibited conduct specified in Sections 32.3B, 32.3C, 32.3D, or 32.3E and subsequently is found to have committed such prohibited conduct a second time within three years, they shall be terminated. Further, should an employee be found to have committed prohibited conduct within three years following completion of voluntary rehabilitation per Section 32.9, they shall be terminated. The level of discipline imposed for subsequent instances of such prohibited conduct beyond three years may be termination but shall be determined on a case by case basis.

32.9 Voluntary Rehabilitation

- A. The primary objectives of the City's drug and alcohol policy are to maintain employee performance and good health and a safe work environment. If, prior to a requirement by the City that the employee submit to any of the tests specified in Section 32.6 of this Article, the employee notifies a supervisor that they have drug or alcohol problems that require treatment, then in that event the employee shall immediately submit to a medical evaluation by a doctor selected and paid by the City. The employee shall enroll in and successfully complete a treatment program recommended by the doctor and any City payment contribution shall be governed by the Mental Health and Chemical Dependency benefit provisions of the applicable City health insurance plan. If the employee fails to complete the treatment program successfully, their employment will be terminated.

- B. If an employee has previously enrolled in voluntary rehabilitative treatment described in subsection A and subsequently again volunteers for such treatment in advance of being required to submit to any of the tests specified in Section 32.6 of this Article, then the employee shall immediately submit to a medical evaluation by a doctor selected and paid by the City and shall successfully complete the treatment program recommended by the doctor. If the employee fails to complete the treatment program successfully, they shall be terminated.

32.10 Searches

- A. The City reserves the right to conduct searches for any reason of City equipment or facilities generally; and may search anything or area in which the employee has an expectation of privacy (i.e. desk or locker) when the City has reasonable suspicion to believe alcohol, marijuana or other controlled substances may be found.
- B. The City may require an employee to submit to a search of the employee's clothing or personal property when the City has reasonable suspicion to believe alcoholic intoxicants, marijuana or other controlled substances may be found. Refusal by the employee to submit to such a search of their clothing or personal property shall result in termination.

32.11 Consequences of Search Results

- A. Searches which do not reveal the presence of alcohol or controlled substances, including marijuana (but excluding any substance lawfully prescribed for the employee's use which has not been obtained for the purpose of abuse), shall result in no further action against the employee related to an alleged violation of Section 32.3D. The employee shall be informed of such search results.
- B. Searches which reveal the presence of alcohol or controlled substances, including marijuana, (but excluding any substance lawfully prescribed for the employee's use which has not been obtained for the purpose of abuse) shall result in those consequences specified in Sections 32.5 or 32.8B and 32.8C as though a positive blood or confirmed urine test had been administered.

32.12 Supervisor Training

The City recognizes that, in order to administer the standards and procedures set forth in this Article fairly and to minimize the possibility of unwarranted testing and searches, supervisory personnel should receive training in how to recognize and deal effectively with substance abuse in the workplace. Accordingly, the City will provide such training to supervisors before the requirements of the Article are implemented and enforced.

32.13 Union Held Harmless

The City agrees to indemnify, defend and save the Union harmless from any and all claims arising solely out of City's acts, errors or omissions in the administration of drug testing and searches conducted pursuant to this Article 32 provided, however, that City shall have no such obligation with respect to claims for which City would be immune if brought directly against City; claims, notice of which is not given by the Union within the time prescribed by ORS 31.275; and claims to the extent they exceed the limits established by ORS 30.270.

ARTICLE 32A – USE OF ALCOHOL AND DRUGS (FOR THE CLASSIFICATION OF BATTALION CHIEF)

32.1A Policy

The City considers its employees to be its most valuable asset and is concerned about their safety, health and well-being. The misuse of alcohol and other drugs can impair employee performance and general physical and mental health and may jeopardize the safety of co-workers and the general public. The City is committed to maintaining a safe and healthy workplace for all employees by identifying the misuse of alcohol and drugs and assisting employees to overcome these problems through appropriate treatment and, if necessary, disciplinary action. The presence or treatment of a substance use problem will not excuse an employee from meeting performance, safety or attendance standards or following other City instructions.

32.2A Employee Assistance Program

The City has established an Employee Assistance Program (EAP) at no cost to the Battalion Chief. The general purpose of the EAP is to reduce problems in the workforce and retain valued employees. Circumstances which constitute a basis for determining “reasonable suspicion” may include, but are not limited to:

 - 4) A work-related or motor vehicle accident in conjunction with other facts which determine “reasonable suspicion”;
 - 5) Citing solely an anonymous tip” does not qualify as reasonable suspicion.
- D. Under the influence – For the purposes of this agreement, an individual is under the influence if a drug test reveals any detectible amount of drugs, or a breathalyzer test reveals a detectible level of alcohol.

32.6A Grounds for Testing

- A. Pre-Hire Drug Testing. Employees in public safety positions may be required to submit to and successfully pass a post-offer, pre-hire drug test.
- B. Reasonable Suspicion Testing. Employees may be required to submit to drug or alcohol testing if reasonable suspicion exists that there is a violation of this Article. The City may test for those drugs for which it has reasonable suspicion that an employee may have consumed.

- C. On-the-Job Accidents Resulting in Serious Injury or Death. At the City's sole discretion, employees may be required to pass a drug and/or alcohol test after any on-the-job accident involving death, or serious physical injury. The City will determine whether a drug and/or alcohol test is required.

32.7A Testing Mechanisms

Testing mechanisms used for any test for alcohol or drugs performed on members of the Association may include breathalyzer and/or standard laboratory blood and/or urine analysis tests.

Procedures used to obtain, and test samples will be prescribed by the testing laboratory in accordance with relevant federal and states statutes as outlined in this Article.

- A. Where the City has reasonable suspicion to believe that an employee is under the influence of any alcoholic intoxicants or controlled substances, including marijuana, or has a controlled substance, including marijuana, present in the body, the City may require that the employee immediately consent and submit to field impairment tests, blood, urine or breathalyzer test. The City shall pay for the costs of the tests. A refusal to consent and submit to any of these tests shall subject an employee to immediate termination.
- B. When the employee is notified that they are required to consent and submit to such tests, or searches as described in this Article, they may request the presence of a Union representative to witness the tests or searches. The tests or searches may not be unduly delayed for more than one hour in order to wait for a representative. The absence of a representative shall not be grounds for the employee to refuse to consent and submit to such tests or searches. The presence of a representative shall not disrupt or interfere with the tests or searches.
- C. Before a supervisor, acting on behalf of the City under this policy, may require an employee to consent and submit to any test(s) specified in this section, or to search(s) specified in this article which require reasonable suspicion, the supervisor must first obtain concurrence from the supervisor's department head or their designee or Human Resources that the information available to the City about the subject employee is sufficient to determine reasonable suspicion that prohibited conduct will be established as a result of such test(s) or search(s).
- D. The employee shall give consent to a blood, urine or breathalyzer test by signing a consent form supplied by the testing facility.
- E. In the event that the blood or urine test results are positive for controlled substance(s), including marijuana, the City shall require that a second confirmatory test from the same sample be conducted which also must be positive before concluding the employee has such substance(s) present in their body.
- F. If a blood or confirmed urine test is positive, the City will instruct the laboratory to retain the blood or urine sample for a period of not less than 30 calendar days from the date the tests are complete for the purpose of allowing the employee to conduct an independent test at their own expense at a laboratory approved by the City.

- G. The procedures followed under this Article to obtain, hold and store blood and urine samples and to conduct laboratory tests shall be documented to establish procedural integrity and chain of evidence. Such procedures shall be administered with due regard for the employee's privacy and the need to maintain the confidentiality of test results to an extent which is not inconsistent with the needs of this Policy. The employee shall be notified of the results of all tests conducted pursuant to this Policy.
- H. Nothing in this Article is intended to establish the City's right to conduct random blood or urine testing to detect the presence of alcohol or controlled substances, or to conduct such tests on any basis other than reasonable suspicion or on the job accidents resulting in serious injury or death as described in Sections 32.6(B) and 32.6(C) of this Article.

32.8A **Prescribed Medications:** An employee utilizing any prescribed medications or controlled substances that may affect their ability to safely perform assigned duties must immediately report this treatment to their supervisor.

In the event there is a question regarding an employee's ability to safely perform assigned duties, the employee shall be responsible for receiving clearance from the employee's physician. For the purpose of this Agreement, under no circumstances, shall the use of marijuana constitute the use of medication under this section. The lawful use of prescription medications is not grounds for disciplinary action by itself; however, failure to follow the reporting procedure may subject an employee to disciplinary action. Employees may also be disciplined for using medication that is unlawfully obtained, or for use that is inconsistent with the prescription or label. Failure to report the use of a prescribed medication or a controlled substance which the employee has been informed may affect their abilities to safely perform assigned duties may subject an employee to disciplinary action.

Protected use of over-the-counter medication shall not include the use of "designer drugs" not approved by the U.S. Food and Drug Administration, or the abuse of over-the-counter drugs. - B. If a Battalion Chief who has not previously committed prohibited conduct specified in Sections 32.4(B), 32.4(C), or 32.4(D), is found to have committed such prohibited conduct, the Battalion Chief shall immediately submit to a medical evaluation by a doctor selected and paid by the City. The evaluation will determine the extent of the Battalion Chief's use of, and dependence on, the applicable substance(s) and, if

necessary, recommend an appropriate program of treatment, including but not limited to rehabilitation and counseling to prevent future use. If a program of treatment is recommended by the doctor, the Battalion Chief shall enroll in it immediately. Any City payment contribution shall be governed by the Mental Health and Chemical Dependency benefit provisions of the applicable City health insurance plan. Failure by the Battalion Chief to enroll in the recommended program or to complete it successfully shall result in their termination from employment.

If the Battalion Chief fails to complete the treatment program successfully, they shall be terminated.

Accordingly, the City will provide such training to supervisors before the requirements of the Article are implemented and enforced.

32.16A Union Held Harmless: The City agrees to indemnify, defend and save the Union harmless from any and all claims arising solely out of City's acts, errors or omissions in the administration of drug testing and searches conducted pursuant to this Article 32A provided, however, that City shall have no such obligation with respect to claims for which City would be immune if brought directly against City; claims, notice of which is not given by the Union within the time prescribed by ORS 31.275; and claims to the extent they exceed the limits established by ORS 30.270.

The response to this type of event by the IAFF does not limit an employee's ability to seek their own medical or mental health treatment, but rather utilizes the experience and the programs established by the IAFF to help support and access significant resources that are necessary to respond to the many needs of fire fighters and their families.

ARTICLE 34 - JOINT LABOR MANAGEMENT COMMITTEE

The City Fire Management and the Union have established a Joint Labor Management Committee. The committee shall set its own goals. The Department will allow Union representatives seven hundred fifty (750) shift hours per fiscal year to perform activities related to Union business or to attend Union activities. However, the City will not be liable for overtime costs when the leave is the result of Union officials attending non IAFF Local 314 related activities; in these circumstances, the Union will secure coverage at their cost. When overtime is required of other personnel as a result of such absences, it shall be paid at the rate of time and one-half (1 1/2) Per Article 15. The Department will be given a minimum twenty-four (24) hours advance notice of time off for Union business when a Union representative will be absent from work. And the
Salem Police Employees' Union
And the
Salem Professional Fire Fighters, IAFF Local 314

Re: SWAT Medics

This agreement is between the City of Salem (City), by and through its Police Department (SPD) and Fire Department (SFD), and the Salem Police Employees Union (SPEU) and the Salem Professional Fire Fighters, International Association of Fire Fighters, Local 314 (Local 314), both unions representing employees of their respective departments in the City of Salem. This agreement is made with the purpose of delineating responsibility, expectations, limitations, liability protections and identifying protocols in relation to the paramedic members (SWAT medic) of the Salem Police Special Weapons and Tactics (SWAT) Team.

Terms and Conditions

1. **RECOGNITION**

SWAT medics are employees of the SFD. SWAT medics are represented by the collective bargaining agreement of Local 314. The SWAT medics shall be governed by the policies and procedures of the SFD, the Operational Guidelines of the SWAT team, specific SPD Directives which are identified below in this agreement, the Collective Bargaining Agreement between the City and Local 314, and the City Personnel Rules. SWAT medics perform the duties of both police officers and fire medics when operational with the SWAT team, the police officer duties they perform is SPEU work. Due to SWAT medics' special training, knowledge and expertise, all parties to this agreement believe that it is in the best interest of the City and SPD/SWAT team involved employees to have specially trained SWAT medics as part of the SWAT team for the safety and health of the SWAT team and the City.

2. **AUTHORITY**

The SWAT medics shall be sworn reserve police officers of the SPD. SWAT medics will have Reserve Police Officer authority only when they are deployed as a SWAT medic and are under control of the SPD SWAT command. The SWAT medics have no police powers at any other time while on or off duty.

Once a SWAT medic is no longer a member of the SPD SWAT Team, their Reserve Police Officer commission is automatically rescinded and the former SWAT medic shall immediately return all equipment, badges and identification related to the SPD SWAT team and their former status as a Reserve Police Officer.

3. TRAINING

Training will be conducted by the City, through the SPD SWAT team. Records of the training will be kept at the SPD for all personnel associated with the team. If at any point in the future the Department on Public Safety and Standards (DPSS) requires a certification process for reserve police officers, the City, through SPD will be responsible for filing the appropriate paper work and reporting the appropriate training for the SWAT medics.

At least once every calendar year, training will be provided to the SWAT medics on the following Salem Police Department Directives:

Policy 4.01 II.	Legal Justification
Policy 4.01, XV.	Use of Force
Directive 4.02	Emergency Vehicle Operation
Directive 4.12	Traumatic Incidents
Directive 4.13	Line of Duty Death
Directive 4.14	Police Incidents Involving Death or Life Threatening Injuries
Directive 5.01	Firearms Training
Directive 5.02	Arrest and Transport of Prisoners
Directive 5.03	Use of Weapons
Rules of Conduct	Applicable sections

Other annual training provided to the SWAT medics at least once per calendar year will include Oregon Revised Statutes on Use of Force and Emergency Vehicle Operation. Additionally, training will be provided to the SWAT medics on current applicable court decisions in relation to detention, arrest, and searches that would apply to the tasks SWAT medics are assigned or could be involved in. At least once per calendar year appropriate training in Defensive Tactics and at least four (4) times per calendar year appropriate firearms training will be provided to the SWAT medics by the SPD. Additional training for the SWAT medics will be provided at the discretion of the City.

4. COMPLAINTS

Complaints of misconduct against SWAT Medics while they are operational with the SWAT team will be dealt with in the same way that any complaint of misconduct against a SPD employee would be dealt with. Therefore, SWAT medics involved in misconduct complaints relating to their SWAT medic duties will be investigated in accordance with SPD misconduct complaint policies. However, final decisions on discipline of SWAT medics will be made by the Fire Chief after consultation with the Police Chief.

5. USE OF DEADLY FORCE

In the event a SWAT medic is involved in an officer involved shooting (OIS) or the use of deadly force during a SWAT operation, the SWAT medic shall be treated the same by the City as would a full time sworn police officer. This would include the protocol established in Directive 4.14, legal representation by the City of Salem for actions in the course and scope of their assignment, and offering of Trauma Team services. This will

also include representation by the SPEU, in conjunction with Local 314, during any investigation related to the OIS or use of force incident. Close coordination between the SPD, SFD, SPEU and Local 314 will take place to meet the needs of the SWAT medic in these situations.

6. LEGAL DEFENSE INSURANCE

The City agrees to provide the PORAC Legal Defense Insurance plan for the SWAT medics as set forth at Section 33 (C) of the SPEU collective bargaining agreement.

7. SELECTION PROCESS

The City will conduct the testing for SWAT medic positions and create an eligibility list, as outlined in SFD SOG #1.4.05 and the SWAT Team Operational Guidelines. The background investigation will include, among other things, a CCH and LEDS check to ensure that the SWAT medic applicant is not prohibited from carrying a firearm.

Once selected and assigned to be a SWAT medic, if performance deficiencies are identified with any SWAT Medic, efforts will be made by the SWAT team leadership and SPD to correct the deficiency. Notice of performance deficiencies of a SWAT medic will also be given to the Fire Chief and Local 314. If the appropriate performance deficiency correction is not made by the affected SWAT medic the City, through coordination between the Chief of Police and Fire Chief, may remove the SWAT medic from the SWAT team.
