6/30/2020		0.3	0.3	1.6		0.1	0.7	3.0		

¹The Lab Reported Concentration is a non-detect when the data concentration is less than the minimum reporting level. The unit µg/L is the same as micrograms per liter of water.

²The Minimum Reporting Level (RL)—is the lowest concentration at which an analyte - Total Microcystin or Cylindrospermopsis - can be detected in a sample and its concentration can be reported with a reasonable degree of accuracy and precision.
