Downtown Parking District

CITY OF SALEM TAX ASSESSMENT METHOD FOR DOWNTOWN PARKING DISTRICT

BACKGROUND

The Downtown Parking District was established in 1976 to provide funding for economic promotion and public parking within the downtown core. The Downtown Advisory Board (DAB) provides comments and recommendations on District policies, as well as, recommendations on a budget for the operation of the District to the City Council.

Each of the three downtown parkades (Marion, Chemeketa, and Liberty Parkades) were constructed to spur development in the Downtown core.

- Chemeketa Parkade
Completed - December 1980
Total number of parking spaces 617
- Liberty Square Parkade
Completed - November 1980
Total number of parking spaces 369
- Marion Parkade
Completed November 1987
Total number of parking spaces 1,059

ASSESSMENT FORMULA

Tax assessment dollars are used to support both on-street parking spaces downtown and off-street parking at Chemeketa, Liberty and Marion parking structures. Each business within the District is assessed a proportional share of the operation and maintenance of the customer parking spaces within the District.

An assessment is based on the type of business, gross floor area, and associated customer parking demand. Business categories and associated demand factor for each type of business is listed on page 12 in the *Parking Demand Table*.

Each business pays a fair share of the Parking District operating budget based on the number of customer parking spaces needed by the business according to the assessment formula.

The “demand factor” is the number of customer parking spaces required by a particular type of business for every 1,000 square feet of gross floor area. Gross floor area includes: walls, corridors, stairways, restrooms, closets, storage rooms, etc.

Downtown Parking District

To determine the number of customer parking spaces that a business will be taxed, multiply the parking demand factor by the business' gross floor area divided by 1,000. To calculate the assessment, multiply the Parking Demand Tax Rate by the number of customer spaces.

- **Buildings with more than One Tenant:**

Buildings with more than one tenant, such as the Equitable Tower and Reed Opera House, have common areas such as stairways, hallways, restrooms, etc. Common areas are included in calculating assessments for these businesses the same as the sole occupant of a building. The assessment method includes a pro-rated share of the building's common area for each business within such a building. Property owner/manager will provide the tenant with common area square footage.

(Total assessable floor area equals occupied floor area plus a portion of the building's common areas)

- **Credit for Exclusive Free Customer Parking:**

Businesses receive credit for any free off-street parking provided exclusively for their customers if they meet the following criteria:

1. The spaces must be clearly identified, and
2. A sign must be in place to show
 - * The name of the Business
 - * Parking is provided for the exclusive use of customers during operating business hours
 - * Business hours of operation

(A credit of one space is allowed against the parking demand. Complete Form E on page 17 and attach to the Downtown Parking District Tax Statement to request this credit)

The City will verify that the available customer parking requirements are satisfied.

- **Tax Rate Per Parking Spaces:**

The final cost per space is determined each year through Council's adoption of the budget. According to Chapter 7.110 (c), the rate of tax is the tax per parking space. The rate of tax is computed by dividing the total tax required to operate and administer the Downtown Parking District for each fiscal year by the total customer parking demand by the taxpayers in the Downtown Parking District. The decision of the Council is final after taking into consideration the total customer demand by the taxpayers in the Downtown Parking District less the number of free off-street customer parking spaces provided by the taxpayer within 200 feet of the District.

- **Assessing For Skybridges:**

For businesses with a direct skybridge connection to the City parking structures, the assessment formula includes an additional tax. Kohl's, Liberty Plaza, and the businesses located in the Capitol Center have skybridge connections. (Use Form B on page 14)

- **Excess Storage Adjustments:**

If more than 40 percent of the occupied gross floor area is devoted to storage of materials and supplies, an adjustment is provided in retail or service categories. (Use Form B on page 14)

- **Partial Hours of Operation**

For businesses that are open to the public less than 20 hours a week between 9 am and 7 pm, they will receive a credit of 50 percent of the Basic Tax, but are still subject to the minimum tax due (see Minimum Tax section on page 8).

Downtown Parking District

- **Minimum Tax:**

In June 1979, a minimum Parking District Tax was initiated and is reflected in Salem Revised Code 7.135. The minimum tax is set forth in the budget resolution each fiscal year. The minimum tax applies to all non-exempt businesses not withstanding the partial year of operation credit.

The minimum tax is calculated by SRC 7.110 – Budget and Tax Rate – Increased annual assessments to finance the operation of the Downtown Parking District are capped at the lesser of the percentage increase in the Bureau of Labor Statistics general consumer price index for Portland, Oregon, metropolitan area for the preceding calendar year or 2%.

- **Exempt Individuals and Organizations:**

Exempt individuals or organizations are those that occupy space within the boundaries of the Downtown Parking District who do not generate Federal or State taxable revenue attributable to the occupancy of the space within the District or who do not claim costs related to the space as deductions from taxable revenue.

- **Partial Year of Operation:**

This adjustment allows a credit to businesses that operate for only part of the fiscal year. (For new business, use Form C on page 15, and for discontinued/moved business, use Form D on page 16).

- **Payment Options:**

Parking District Tax payments are due in full, unless a business selects an optional payment plan. The payment option must be indicated on the Downtown Parking District Tax Statement (Form A on page 13). The signed Form A and the first payment option must be received on the tax due date, otherwise penalty and interest accrue on the full balance of tax due pursuant to SRC 7.170.

Subsequent optional payments must be received on their respective due date shown on page 12 or they will be subject to interest and penalty. If subsequent payments are not made when due, the Financial Services Administrator may recommend to the Council that the full amount of the tax be immediately due and payable. It is the responsibility of the tax payer to pay the tax on the due date for the option they have chosen.

APPEALS

An appeal process is available if a business believes that their Tax Statement has been incorrectly calculated. To file an appeal or Tax Re-determination, the taxpayer must:

- Pay the tax indicated on the Tax Statement by the due date for the appeal to be considered.
- File a petition for re-determination and refund with the Financial Services Administrator within 30 days of the due date of the tax according to the requirements set forth in SRC 7.20 Re-determinations. The Financial Services Administrator will reconsider the tax assessment and if requested, will grant an oral hearing within ten days notice. The Financial Services Administrator may increase or decrease the amount of the tax due as a result of the hearing. If an increase is determined it will be payable immediately after the hearing.

The Appeal or Tax Re-determination process does not preempt the assessment of fines and/or penalties on late tax payments, and payment must be received by the due date as a requirement of the Appeal or Re-determination.

GRIEVANCE

Grievances or disagreements that business owners may have regarding operations, policies, and all other issues related to the Downtown Parking Tax can be filed with the City Manager or the City Manager's designee pursuant to SRC 7.060 GRIEVANCES. Any Grievance filed does not preempt the assessment of fines and/or penalties on late tax payments, and tax payers are advised to make their assessment tax payment on or before the due date regardless of any Grievance filed.

Downtown Parking District

DUE DATE FOR TAX

Annual tax payments, signed tax statements, and required documentation are due 30 days after issuance each year. New businesses who receive a tax statement during the year must pay the tax or tax option due within 20 days of receipt of the tax statement.

PENALTIES AND INTEREST

A penalty of ten percent (10%) is imposed on all delinquent accounts. In addition interest of one percent (1%) per month is charged from the date of delinquency until paid. Late payments are subject to interest and penalty regardless if an appeal or grievance has been filed.

REFUNDS

If a business closes operation during the year or moves out of the Downtown Parking District, the tax liability period ends at close of operation. The taxpayer should contact the Finance Division to request calculation of a refund (or use Form D for “discontinued business”). Any over payment on an account is refunded, unless otherwise specified.

CITY OF SALEM DOWNTOWN PARKING DISTRICT TAX ADJUSTMENT FORM E

BUSINESS NAME _____

Off-Street Customer Parking Spaces Credit:

To determine if you are eligible for parking space credits that would reduce your Parking District tax, please complete the following questions:

- 1) Number of designated off street parking spaces provided free for your customer's exclusive use.

- 2) Please provide a description of the location of these spaces (i.e., lot located adjacent to the north side of the business)

- 3) Of the spaces identified in Line 1, how many spaces are not clearly identified for free customer use with your establishment's name? _____

Clear identification may consist of signage and/or stenciling of each individual stall or signage at the entrance to the designated off-street parking area. Off street parking spaces with conflicting signage (i.e., signage at lot entrance stating free customer parking, with individual spaces labeled permit parking only) would fall under 'not clearly identified'. If the **lot** is designated as "free customer parking", then it should not include employee or permit parking.

- 4) Of the spaces identified in Line 1, not included in Line 3, how many spaces are shared with another business and are not available for business exclusive use during any of your operating hours? _____

Please note for an off-street parking space to qualify for a credit against your Downtown Parking District tax, the parking space must be available exclusively for your customers during your business hours of operation.

- 5) To calculate the total number of off-street customer parking spaces provided, take the amount in Line 1, and subtract the amounts identified in Lines 3 and 4. _____

Enter amount from Line 5 on your Downtown Parking District Tax Statement Form A Line 5 and attach.
