Quality designations, cost-efficiency and other ratings reflect a partial assessment of quality and cost-efficiency and should not be the sole basis for decision-making. They are not a guarantee of the quality of care that will be provided to individual patients. You are encouraged to consider all relevant factors and consult with your physician when selecting a health care provider. Health care providers that participate in the Cigna network are independent contractors solely responsible for the care and services provided to their patients. They are not agents of Cigna.
