## Colors:

Legend – White (Retroreflective).

Background – Green (Retroreflective).

Substrates shall be sheeted with White Hi-Intensity Prismatic Sheeting.

Green 3-M Electronic Cuttable Film shall be reverse weeded.

## Letter Series & Size:

Series "C" font shall be used in accordance to the Federal Highway Administration Standards.

Street names shall have initial uppercase followed by lower case letters.

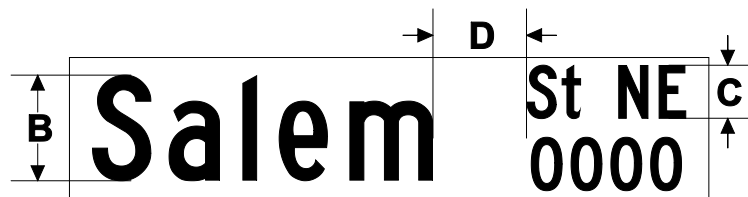

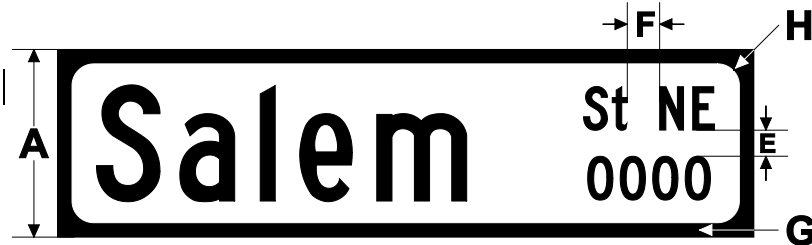

## Supplemental Lettering:

Whole block numbers only.

Suffix abbreviations shall be upper and lower case as follows: St, Rd, Dr, Av, Way, Ct, Ln, Lp, Pl, Blvd, Terr & Cir.

Section abbreviations shall be upper case as follows: N, NE, NW, S & SE

Private streets will use Pvt in place of block numbers.

A = Substrate size

B = Font height

C = Supplemental lettering

D = Minimum spacing between supplemental lettering & street name

E = Spacing between suffix & block number

F = Suffix & section spacing

G = Border width

H = Border radius

## Substrate:

All substrates shall be aluminum with square corners. 6", 8", & 9" substrates shall have a thickness of .100"<sup>2</sup>.

13" & 14" substrates shall have a thickness of .125".

The lengths of substrates shall be as follows:

For 6" substrates: 24", 27", 30", 33", 36 or 42"<sup>2,3</sup>.

For 8" & 9" substrates: 24", 27", 30", 33", 36", 42", 48", 54" or 60"<sup>2,3</sup>.

For 13" & 14" substrates: 36", 42", 48", 54", 60", 66" or 72"<sup>3</sup>.

<sup>1</sup> Use for text which includes lower case g, j, p, q, and y.

<sup>2</sup> For 6" substrates 42" in length, and 8", & 9" substrates 60" in length the thickness shall be .125".

<sup>3</sup> The "B" series font may be used for the street name as an alternate if the text is unable to fit on a 42" substrate for a 6" sign, a 60" substrate for an 8" and 9" sign, or a 72" substrate for a 13" or 14" sign.
